# AUI Inc. Receives Gold Award In The Heavy Highway/GC Category At The *Constructech* Vision Awards

*Leveraging Computer Guidance Corporation's eCMS ERP and Business Intelligence Applications for Tracking Key Performance Metrics and Meeting Regulatory Requirements*

Scottsdale, Arizona – October 7, 2014– Computer Guidance Corporation, a leading developer of ERP software solutions for the construction industry, today announced that AUI Inc. was recognized on Friday, October 3, 2014 as a 2014 Vision Award winner by *Constructech* magazine. Computer Guidance Corporation was named as its technology enabler. This year, the winners and their solution providers gathered at the Sofitel San Francisco Bay in California.

The *Constructech* Vision Awards acknowledge companies that have stayed up-to-date on the latest trends and products in order to make decisions that have helped their businesses succeed and thrive.

"From commercial to residential, owner to contractor, there is one point they can all agree on: It is all about the data. How do you harness it? What insights can it provide on a job? How can it make a company more profitable?" said Peggy Smedley, editorial director, *Constructech*. "The 2014 Vision Award winners have found ways to answer these questions, and it can be seen in their success."

AUI Inc., a long-term Computer Guidance customer, was recognized for their innovative and advanced utilization of Computer Guidance's eCMS ERP software and Business Intelligence applications for generating financial reports, tracking key performance metrics, meeting regulatory requirements and improving overall business operations. AUI has developed over 100 custom reports that have had the most impact on the company's productivity and efficiency including, but not limited to: EEO Report Filing, Equipment Utilization/Cost Analysis, Certified Payroll Processing (federal, state and municipal prevailing wage reporting), Year-End Processing, Safety Administration, Manhours Reporting, Project Cost Report, Actual Committed Report, Contract Status report., Equipment History by Job, Job/Employee Hours and Summary Job Analysis. For these accomplishments, AUI earned a Gold Award in the Heavy Highway/GC Category.

"eCMS and its integrated Business Intelligence applications allow us to leverage our own data for smarter decision-making and improved administrative processing," stated Michele Zulka-King, Chief Financial Officer, AUI Inc. "We are pleased with the successes we have experienced with eCMS through the utilization of its powerful data set and flexible database architecture."

"We are honored to be recognized as a leading ERP solution provider for the construction market in North America," said Mike Bihlmeier, President, Computer Guidance Corporation. "This recognition is a true testament of our continued vision and tireless efforts to work hand in hand with our customers solving their daily challenges and bringing them competitive edge through our construction software solutions."

**About Computer Guidance Corporation**
Computer Guidance is the software development expert for construction enterprise resource planning solutions. In business since 1981, Computer Guidance has provided its customers with construction financial and project management applications supported by industry-leading business intelligence and analytics applications and advanced productivity tools. Computer Guidance is a premier Business Partner of IBM Corporation, providing a solid technology foundation for both its cloud-based, hosted and on-premise solutions. Hundreds of commercial contractors have implemented Computer Guidance ERP achieving quantifiable benefits year after year. Many Computer Guidance customers are represented among the Engineering News-Record Top 50, 400 and 600 and the On-Site Top 40. Computer Guidance's construction software expertise has led the Associated General Contractors of America to select Computer Guidance's solutions as the ERP solution of choice for its members. eCMS has also been acknowledged by the CFMA IT Survey, ranking its job cost, accounting and payroll applications as the number one software for commercial contractors. In 2013, Computer Guidance received a silver Contractor's Choice award from Roads & Bridges magazine recognizing eCMS as one of the most widely implemented ERP solutions among its readership.

Computer Guidance Corporation became a member of JDM Technology Group in January 2014. JDM Technology Group is a global software business that is exclusively in Construction with 40,000 users served, in 40 countries and in 6 continents, employing 250 staff. JDM Technology Group's core business philosophy is long-term commitment to customer service, coupled with providing the best possible solutions to customers.
