Rapid Growth Continues for Computer Guidance Corporation ERP Cloud Deployments

Leading ERP Software Provider Receives Industry's Highest Adoption Rate In Cloud-Based ERP Deployments

Scottsdale, Arizona – September 27, 2016 – Computer Guidance Corporation, the leading developer of cloud-based ERP solutions for the construction industry, today announced the exponential growth of its cloud hosting services.

Computer Guidance was the first construction ERP provider to be 100% browser-based and offer clients a cloud hosting deployment option. Over the ten years since, Computer Guidance's professionally managed, rock-solid cloud hosting data centers have grown to support tens of thousands of users and is on pace to have 50% of client base hosted by 2017.

Leveraging leading technologies and practices which are examined annually with SOC2 compliance audits, Computer Guidance cloud hosting services receives the highest marks for security, availability, confidentiality, and disaster recovery.

"The compelling benefits of cloud hosting such as greater visibility and control, improved collaboration and opportunity for increased data-driven decision-making have fueled demand of our cloud hosting services," said Mike Bihlmeier, President, Computer Guidance Corporation. "A growing number of companies continue to choose Computer Guidance to manage and maintain their ERP software while ensuring they perpetually operate with current technologies and the most innovative solutions."

About Computer Guidance Corporation
