Computer Guidance Concludes Its User Conference

Customers, partners and Computer Guidance team collaborate on innovative product development introductions and participate in advanced educational programs

Scottsdale, Arizona – August 4, 2009 – Computer Guidance Corporation, the leading developer of financial and project management software solutions for architecture, engineering and construction companies, brought its 2009 Customer Focus Conference to a close last week with great success as it delivered its aggressive corporate growth strategy and innovative product development plans in front of 200 plus clients through its five-day event in Scottsdale, AZ.

Customer Focus 2009 unveiled forward-looking solutions that the company plans to launch in the upcoming few months to enable construction companies with fact-based, informed decision-making by integrating business intelligence into their daily workflow. From remote timesheets, user-friendly Rich User Interface (RUI) dashboard applications to integration of remote equipment usage and location information; Computer Guidance is prepared to offer construction companies advanced solutions to drive operating expenses down and raise productivity and efficiency to higher levels.

“We like where Computer Guidance is headed was the common response among customers and Advisory Board Members throughout the conference.” said Roger D. Kirk, CEO and President of Computer Guidance Corporation. “We have an aggressive product development plan in place supported by customer collaboration and strong partnerships. Our user conference reinforced our strategy to deliver breakthrough technologies for increased automation and business intelligence.”

At the five-day conference, customers had the opportunity to participate in hands-on applications training and one-on-one business process improvements consulting. Application Round Tables and open forums facilitated product development and best practices discussions. Partners from Grant Thornton, FMI Corporation, McGraw Hill and other industry experts shared their views of the current state of the industry, and strategies to consider for the months ahead.

About Computer Guidance Corporation

Computer Guidance has the largest customer representation in the Engineering News Record (ENR) “Top 400 Contractors” and “Top 50 Contractors.” Computer Guidance software has been the leading solution among General Contractors with revenue of more than 250-million dollars and 100-250-million dollars for the past 12 years according to the CFMA Information Technology Survey.

Since 1981, Computer Guidance has been the leading provider of financial and project management solutions to more than 600 enterprise customers from various commercial construction disciplines. Computer Guidance continues to be ranked “World Class” in customer support excellence by independent IBM surveys for the past 20 years.
