**Computer Guidance Releases A Scale Interface Application**  
*Expanding on Its Core Integrated Construction Management Solution*

Scottsdale, Arizona – February 16, 2010 – Computer Guidance Corporation, the leading developer of financial and project management software solutions for architecture, engineering and construction companies, today announced the release of a new Scale Interface application which expands on its core integrated construction management solution, eCMS®.

The Scale Interface captures vehicle tare and loaded weights from new or existing scales, allowing users to create tickets and invoices based on real-time data. Fully integrated with eCMS, the Scale Interface can leverage existing contract information, unit of measure conversion data and historical information to complete quick and accurate transactions.

“The release of the Scale Interface represents an exciting step forward for Computer Guidance and our customers,” stated Roger D. Kirk, President and CEO of Computer Guidance Corporation. “We are committed to meeting our customers’ requests and providing the best possible solutions through the expansion of our eCMS construction management solution.”

Computer Guidance will continue to support third-party scale interface solutions allowing customers a greater choice for the software used.

**About Computer Guidance Corporation**

Computer Guidance has the largest customer representation in the Engineering News Record (ENR) “Top 400 Contractors” and “Top 50 Contractors.” Computer Guidance software has been the leading solution among General Contractors with revenue of more than 250-million dollars and 100-250-million dollars for the past 12 years according to the CFMA Information Technology Survey.

Since 1981, Computer Guidance has been the leading provider of financial and project management solutions to more than 600 enterprise customers from various commercial construction disciplines. Computer Guidance continues to be ranked “World Class” in customer support excellence by independent IBM surveys for the past 20 years.
