Computer Guidance Expands Its Managed Hosting Services Offering
Introduction of second data center environment for added capacity and solutions

Scottsdale, Arizona – April 1, 2010 – Computer Guidance Corporation, the leading developer of financial and project management software solutions for architecture, engineering and construction companies, today announced the introduction of its second data center environment for extra capacity and capabilities of its growing managed hosting services.

Services offered through the Avnet owned Tier IV SAS 70 Type II data center include its Hosted eCMS, SaaS (Software as a Service) and High-Availability and Disaster Recovery solutions. The second data center environment provides the opportunity for Hosted eCMS customers to take advantage of a High-Availability and Disaster Recovery solution if desired.

“With growing deployments of our Hosted eCMS and High-Availability and Disaster Recovery solutions, we needed to add a second data center environment to provide added reliability, flexibility and security.” Roger D. Kirk, President/CEO, Computer Guidance Corporation. “We are pleased with the growth that has required this expansion to a second facility and we will continue to add to our managed hosting offerings.”

About Computer Guidance Corporation

Computer Guidance has the largest customer representation in the Engineering News Record (ENR) “Top 400 Contractors” and “Top 50 Contractors.” Computer Guidance software has been the leading solution among General Contractors with revenue of more than 250-million dollars and 100-250-million dollars for the past 12 years according to the CFMA Information Technology Survey.

Since 1981, Computer Guidance has been the leading provider of financial and project management solutions to more than 600 enterprise customers from various commercial construction disciplines. Computer Guidance continues to be ranked “World Class” in customer support excellence by independent IBM surveys for the past 20 years.
