Computer Guidance Welcomes Moretrench as a Hosted eCMS Customer
Moretrench Selects Computer Guidance's Hosted eCMS v.3.7.0 Solution

Scottsdale, Arizona – April 6, 2010 – Computer Guidance Corporation, the leading developer of financial and project management software solutions for architecture, engineering and construction companies, today announced that Moretrench will be utilizing Computer Guidance's Hosted eCMS construction management solution to address its financial and project management needs. Moretrench is a nationally renowned geotechnical contractor, specializing in delivering design/build construction and geotechnical solutions to the civil, industrial and environmental remediation industries.

"Moretrench looks forward to continuing our long-standing relationship with Computer Guidance Corporation. The advanced functionalities and feature-rich applications of eCMS v.3.7.0 will support our operations as we fulfill our mission of providing unique and specialized geotechnical and construction solutions to meet the needs of our clients." said Todd Andrews, Assistant Treasurer of Moretrench. "With a flexible software model, Hosted eCMS was the right technology decision for our organization."

"Hosted eCMS has proven to be a great success and we continue to see increased demand for our SaaS (Software as a Service) solution supported by our managed services", said Roger D. Kirk, CEO and President, Computer Guidance Corporation. "Hosted eCMS provides the needed flexibility, both in technology and in business model, for construction companies seeking improved operational efficiencies with conservative IT budgets."

Hosted eCMS provides a fully integrated, enterprise-class financial, project management and productivity enhancement solution suite in a managed environment with guaranteed uptime and advanced solution, applications and system monitoring services. This minimizes the impact of implementing a new solution on existing IT resources and provides a stable platform for companies to realize the benefits of Computer Guidance's eCMS solution with minimal upfront investment.

About Computer Guidance Corporation

Computer Guidance has the largest customer representation in the Engineering News Record (ENR) "Top 400 Contractors" and "Top 50 Contractors." Computer Guidance software has been the leading solution among General Contractors with revenue of more than 250-million dollars and 100-250-million dollars for the past 12 years according to the CFMA Information Technology Survey.

Since 1981, Computer Guidance has been the leading provider of financial and project management solutions to more than 600 enterprise customers from various commercial construction disciplines. Computer Guidance continues to be ranked “World Class” in customer support excellence by independent IBM surveys for the past 20 years.
