SJ Amoroso Construction Co., Inc. Selects eCMS® Construction Management Solution Computer Guidance Corporation Welcomes ENR Top 400 Customer

Scottsdale, Arizona – November 2, 2010 – Computer Guidance Corporation, the leading developer of financial and project management software solutions for architecture, engineering and construction companies, today announced that SJ Amoroso has selected Computer Guidance's eCMS construction management solution, for the management of its full range general contracting services.

SJ Amoroso has continuously ranked among the Engineering-News Record Top 400 contractors providing general contracting, pre-construction consulting, design-build contracting, and construction management services. Headquartered in San Francisco, CA, SJ Amoroso operates in a highly competitive market. Therefore, it is even more critical to its continuing success to deliver to its customers unique, innovative and cost-effective construction management services.

"SJ Amoroso wants to keep up to date with the latest advancements in construction management to stay ahead of the competition while increasing operational efficiency and, most importantly, performing best-inclass customer service," stated Laura Heckenberg, Controller, SJ Amoroso Construction Co., Inc. "With Computer Guidance's construction management solution offered on an IBM POWER7 platform, we are confident that we can achieve our goals today and in the years ahead."

"We are pleased to partner with SJ Amoroso supporting them to complete their innovative construction projects with the highest quality, on time and on budget." stated Roger D. Kirk, President/CEO, Computer Guidance Corporation. "We will bring our thirty years of construction management experience to this implementation to demonstrate the benefits of our eCMS solution powered by the new IBM POWER7."

About Computer Guidance Corporation

Computer Guidance has the largest customer representation in the Engineering News Record (ENR) "Top 400 Contractors" and "Top 50 Contractors." Computer Guidance software has been the leading solution among General Contractors with revenue of more than 250-million dollars and 100-250-million dollars for the past 12 years according to the CFMA Information Technology Survey.

Since 1981, Computer Guidance has been the leading provider of financial and project management solutions to more than 600 enterprise customers from various commercial construction disciplines. Computer Guidance continues to be ranked "World Class" in customer support excellence by independent IBM surveys for the past 20 years.
