

**D.W. Nicholson Corporation Selects Hosted eCMS**

*Computer Guidance Welcomes D.W. Nicholson As A New Customer*

Scottsdale, Arizona – December 14, 2010 – Computer Guidance Corporation, the leading developer of financial and project management software solutions for architecture, engineering and construction companies, today announced that D.W. Nicholson has selected Computer Guidance's Hosted eCMS®, a SaaS (Software as a Service) construction management solution, for the management of hundreds of highly specialized mechanical, electrical and structural steel commercial and industrial construction projects.

Since 1935, D.W. Nicholson Corporation has provided a full array of services to manufacturers across the United States, including precision machinery installation, complex conveying, material handling systems, process systems, cargo and baggage handling systems.

"We have taken the slower economy as an opportunity to evaluate our company's overall operational performance and its underlying technology solutions. We have identified that we have outgrown our current construction accounting solution and are in a need of an integrated construction management solution with an on-demand and dynamic reporting capability." stated Cliff Schuch, CFO, D.W. Nicholson Corporation. "Having diverse services offering requires us to rely on a solution with integrated time and materials billing, advanced job cost and financial management. We believe Computer Guidance's hosted solution provides for comprehensive management of our accounting IT infrastructure."

"The true value of an integrated construction management solution is derived from the benefits our clients gain upon its implementation regardless of the software model." stated Roger D. Kirk, President/CEO, Computer Guidance Corporation. "Our hosted model is an added value and a win-win for Computer Guidance Corporation and our clients, as it supports today's economics while providing the needed business-critical functionality."

**About Computer Guidance Corporation**

Computer Guidance has the largest customer representation in the Engineering News Record (ENR) "Top 400 Contractors" and "Top 50 Contractors." Computer Guidance software has been the leading solution among General Contractors with revenue of more than 250-million dollars and 100-250-million dollars for the past 12 years according to the CFMA Information Technology Survey.

Since 1981, Computer Guidance has been the leading provider of financial and project management solutions to more than 600 enterprise customers from various commercial construction disciplines. Computer Guidance continues to be ranked "World Class" in customer support excellence by independent IBM surveys for the past 20 years.
