Sterling Boiler & Mechanical, Inc. Renews Computer Guidance Partnership
Computer Guidance Welcomes Sterling Boiler To Its eCMS v.3.7.0 Solution

Scottsdale, Arizona – January 11, 2011 – Computer Guidance Corporation, the leading developer of construction financial and project management software solutions for architecture, engineering and construction companies, today announced that Sterling Boiler & Mechanical has selected eCMS v.3.7.0 construction management solution for the management of its diverse construction operations across the nation.

Sterling Boiler & Mechanical is a full service specialty contractor with services including boilermakers, pipefitters, steel erection, millwright, electrical, machining, environmental, fabrication, refractories, clean air technologies, general and civil construction.

“We have been a satisfied client of Computer Guidance Corporation and are looking forward to the new features and functionalities that eCMS v.3.7.0 offers. We want a reliable, yet flexible solution to support our diverse services offerings in today’s competitive business environment.” stated Ken Wahl, Director of Finance, Sterling Boiler & Mechanical, Inc. “Our decision was based on our twelve year partnership with Computer Guidance. Computer Guidance has been a responsive and supportive partner and this was an important factor in our solution selection.”

“We have been providing an integrated construction management solution for many years and have seen the benefits that it can deliver to commercial contractors like Sterling Boiler & Mechanical.” stated Roger D. Kirk, President/CEO, Computer Guidance Corporation. “We look forward to growing our partnership with Sterling Boiler & Mechanical helping them maximize their return on their technology investment for many years to come.”

About Computer Guidance Corporation

Since 1981, Computer Guidance offers the most complete, proven and reliable construction management solution for architecture, engineering and commercial construction companies. Computer Guidance’s eCMS solution provides financial accounting and project management applications supported by advanced business intelligence and innovative productivity tools. eCMS is recognized as the solution of choice for top general and specialty contractors in the CFMA Information Technology Survey and has been selected by the Associated General Contractors of America (AGC) as the construction management solution of choice for its members nationwide since 2010. Computer Guidance customers are recognized among the Top 400 Contractors and Top 50 Contractors by Engineering-News Record (ENR). Computer Guidance is a strategic technology partner with IBM Corporation, providing a solid technology foundation for both its hosted and enterprise solutions.
