T.N. Ward Company Selects eCMS For Integrated Construction Management

Computer Guidance Corporation Welcomes New Client to Portfolio

Scottsdale, Arizona – February 3, 2011 – Computer Guidance Corporation, the leading developer of construction financial and project management software solutions for architecture, engineering and construction companies, today announced that T.N. Ward Company has selected eCMS® enterprise resource planning solution for their financial and project management needs.

T.N. Ward Company, ranked as No. 221 on Engineering News-Record's 2010 Top 400 list, is a full service general contractor and construction manager with offices in Pennsylvania and New Jersey. T.N. Ward Company purchased Computer Guidance's enterprise eCMS construction management solution, including core financial accounting, project management, business intelligence, document imaging and workflow applications.

"We have evaluated a number of construction management solutions and chose Computer Guidance's eCMS solution for its feature-rich applications based on a single solution platform with customizable reporting capabilities that allow us to tailor the system to our needs" stated David Tarditi, VP of Finance, T.N. Ward Company.

"It is very important to us as well as to our customers that we have immediate access to accurate financial and project data to effectively track and manage every project, task, transaction and activity." stated Mark Smith, Controller, T.N. Ward Company. "With eCMS, we are confident that our operations team will have the necessary visibility into project activities and cost information and our management team will have an improved picture of our operations as a whole."

"Our construction management solution has proven to drive greater productivity, improved operational efficiency and informed decision-making by providing real-time, integrated financial and project management data to all involved across the enterprise." stated Roger D. Kirk, President/CEO, Computer Guidance Corporation. "T.N. Ward Company recognizes the importance of enterprise-wide communication among field workers, office personnel, executives, subcontractors, project owners and architects which is facilitated by eCMS."

About Computer Guidance Corporation

Since 1981, Computer Guidance offers the most complete, proven and reliable construction management solution for architecture, engineering and commercial construction companies. Computer Guidance's eCMS solution provides financial accounting and project management applications supported by advanced business intelligence and innovative productivity tools. eCMS is recognized as the solution of choice for top general and specialty contractors in the CFMA Information Technology Survey and has been selected by the Associated General Contractors of America (AGC) as the construction management solution of choice for its members nationwide since 2010. Computer Guidance customers are recognized among the Top 400 Contractors and Top 50 Contractors by Engineering News-Record (ENR). Computer Guidance is a strategic technology partner with IBM Corporation, providing a solid technology foundation for both its hosted and enterprise solutions.
