Southland Construction, Inc. Renews Agreement With Computer Guidance
Southland Construction, Inc. Selects Hosted eCMS Solution

Scottsdale, Arizona – April 26, 2011 – Computer Guidance Corporation, the leading developer of financial and project management software solutions for architecture, engineering and construction companies, today announced that Southland Construction, Inc., a general contractor providing vertical, heavy highway, and utility construction services in Florida, has renewed its agreement with Computer Guidance Corporation selecting Hosted eCMS.

Southland Construction performs work on projects ranging from \$500,000 to \$47,500,000, with focuses on a variety of infrastructure, retail and restaurant construction. Since 1977, the company has performed both new construction and renovations throughout the state of Florida and has served private and public customers.

“Southland Construction has been a satisfied customer of Computer Guidance and looks forward to the benefits that eCMS v.3.7.0 has to offer”, said Shannon Knox, Director of IT, Southland Construction, Inc. “We chose Hosted eCMS to avoid a lengthy solution implementation and to minimize the impact to our business.”

“Hosted eCMS has proven to be a great success and we continue to see increased demand for our SaaS (Software as a Service) solution supported by our managed services”, said Roger D. Kirk, CEO and President, Computer Guidance Corporation. “Hosted eCMS provides the needed flexibility, both in technology and in business model, for construction companies seeking improved operational efficiencies with minimum IT infrastructure.”

About Computer Guidance Corporation

Since 1981, Computer Guidance offers the most complete, proven and reliable construction management solution for architecture, engineering and commercial construction companies. Computer Guidance’s eCMS solution provides financial accounting and project management applications supported by advanced business intelligence and innovative productivity tools. eCMS is recognized as the solution of choice for top general and specialty contractors in the CFMA Information Technology Survey and has been selected by the Associated General Contractors of America (AGC) as the construction management solution of choice for its members nationwide since 2010. Computer Guidance customers are recognized among the Top 400 Contractors and Top 50 Contractors by Engineering News-Record (ENR). Computer Guidance is a strategic technology partner with IBM Corporation, providing a solid technology foundation for both its hosted and enterprise solutions.
