Grimmett Brothers, Inc. Subscribes To Hosted eCMS
Computer Guidance Welcomes Renewed Partnership

Scottsdale, Arizona – May 10, 2011 – Computer Guidance Corporation, the leading developer of financial and project management software solutions for architecture, engineering and construction companies, today announced that Grimmett Brothers, Inc. commits to upgrade to Computer Guidance's Hosted eCMS, a SaaS (Software as a Service) construction management solution, for the management of its residential and commercial construction services in the state of Texas.

Computer Guidance Corporation introduced Hosted eCMS to the marketplace in 2009. Since the official product launch, a high volume of Computer Guidance customers have implemented Hosted eCMS and Computer Guidance has continued to invest in the solution and associated services in order to meet the increased demand.

"When it became time to upgrade our construction management solution, we selected Hosted eCMS as the solution model meets our organization's corporate strategy. With Hosted eCMS, we will be able to utilize Computer Guidance's leading construction management solution while freeing up internal IT resources for our core business," said Ray Max Grimmett, Vice President, Grimmett Brothers, Inc. "We are confident in our decision knowing that Hosted eCMS has a wide adoption in the industry."

"We are pleased with the increased demand for our Hosted eCMS solution and we continue to place emphasis on our cloud computing strategy," stated Roger D. Kirk, President and CEO of Computer Guidance Corporation. "With the completion of the SAS70 Type II Audit, our customers can be confident in our ability to handle their sensitive financial and project data with the highest standards and security."

About Computer Guidance Corporation

Since 1981, Computer Guidance offers the most complete, proven and reliable construction management solution for architecture, engineering and commercial construction companies. Computer Guidance's eCMS solution provides financial accounting and project management applications supported by advanced business intelligence and innovative productivity tools. eCMS is recognized as the solution of choice for top general and specialty contractors in the CFMA Information Technology Survey and has been selected by the Associated General Contractors of America (AGC) as the construction management solution of choice for its members nationwide since 2010. Computer Guidance customers are recognized among the Top 400 Contractors and Top 50 Contractors by Engineering News-Record (ENR). Computer Guidance is a strategic technology partner with IBM Corporation, providing a solid technology foundation for both its hosted and enterprise solutions.
