Gypsum Systems, Inc. Selects Computer Guidance's eCMS v.3.7.0

Customer decision is driven by long-term partnership and continued customer service commitment

Scottsdale, Arizona – June 14, 2011 – Computer Guidance Corporation, the leading developer of financial and project management software solutions for architecture, engineering and construction companies, today announced that Gypsum Systems, Inc. has selected Computer Guidance's eCMS v.3.7.0 to drive increased efficiencies and productivity across the organization.

Gypsum Systems, Inc. is a full service interior building subcontractor headquartered in Elma, New York specializing in drywall, carpentry and architectural millwork. The company has been a satisfied Computer Guidance customer since 1999 and looks forward to the new features and functionality that the latest eCMS solution has to offer to further support its commitment for delivering best-in-class customer service.

"Our renewed partnership with Computer Guidance provides our organization with the opportunity to enhance communication between the field workers and the back-office staff." stated Charles Rapalje, Controller, Gypsum Systems, Inc. "Our customers will certainly benefit from the positive impact a fully informed construction crew and financial team can have on their day-to-day productivity and efficiency."

"In an age of growing competition, we are proud to support Gypsum Systems, Inc. in differentiating itself through the delivery of our innovative and fully integrated construction management applications." stated Roger D. Kirk, President/CEO, Computer Guidance Corporation. "Gypsum Systems, Inc. recognizes the need to implement newer technologies in order to sustain profitability and increase customer satisfaction."

About Computer Guidance Corporation

Since 1981, Computer Guidance offers the most complete, proven and reliable construction management solution for architecture, engineering and commercial construction companies. Computer Guidance's eCMS solution provides financial accounting and project management applications supported by advanced business intelligence and innovative productivity tools. eCMS is recognized as the solution of choice for top general and specialty contractors in the CFMA Information Technology Survey and has been selected by the Associated General Contractors of America (AGC) as the construction management solution of choice for its members nationwide since 2010. Computer Guidance customers are recognized among the Top 400 Contractors and Top 50 Contractors by Engineering-News Record (ENR). Computer Guidance is a strategic technology partner with IBM Corporation, providing a solid technology foundation for both its hosted and enterprise solutions.
