Ames Construction, Inc. Selects eCMS
Innovation and Functionality Drives Decision

Scottsdale, Arizona – July 19, 2011 – Computer Guidance Corporation, the leading developer of construction financial and project management software solutions for architecture, engineering and construction companies, today announced that Ames Construction, Inc., a full-service, heavy civil and industrial general contractor recognized as #65 on the Engineering News-Record Top 400, has signed an agreement for the implementation of Computer Guidance’s eCMS construction enterprise resource planning solution.

Ames Construction has selected eCMS due to the ease of conversion from the current system and significant cost savings compared to other systems. Ames Construction will be implementing eCMS core financial applications, project management, business intelligence, and enterprise content management solutions.

“We are confident that eCMS will bring increases in productivity through simplified business processes and real-time data capture.” said Dennis McGill, Chief Financial Officer, Ames Construction, Inc.

“One of our goals when searching for a solution was to consolidate our construction management applications into a single, fully integrated solution.” said Bob Bruckner, Information Systems Manager, Ames Construction, Inc. “With the move to eCMS, we will be able to simplify the management of our IT infrastructure.”

“For the past thirty years, it has been my vision to provide commercial contractors with the tools needed to support their business.” said Roger D. Kirk, President and CEO, Computer Guidance Corporation. “Ames Construction’s selection of eCMS validates that we are achieving these goals.”

About Computer Guidance Corporation

Since 1981, Computer Guidance offers the most complete, proven and reliable construction management solution for architecture, engineering and commercial construction companies. Computer Guidance’s eCMS solution provides financial accounting and project management applications supported by advanced business intelligence and innovative productivity tools. eCMS is recognized as the solution of choice for top general and specialty contractors in the CFMA Information Technology Survey and has been selected by the Associated General Contractors of America (AGC) as the construction management solution of choice for its members nationwide since 2010. Computer Guidance customers are recognized among the Top 400 Contractors and Top 50 Contractors by Engineering-News Record (ENR). Computer Guidance is a strategic technology partner with IBM Corporation, providing a solid technology foundation for both its hosted and enterprise solutions.
