Computer Guidance Corporation Concludes Successful User Conference
Organization Celebrates 30th Anniversary with Customers, Partners and Industry Experts

Scottsdale, Arizona – August 02, 2011 – Computer Guidance Corporation, the leading developer of construction financial and project management software solutions for architecture, engineering and construction companies, recently concluded its annual user conference at the Phoenician Resort & Spa in Scottsdale, Arizona.

The event was created as subject-specific summits for customers to network with each other, share best practices and learn how Computer Guidance solutions can improve their construction businesses. Over 50 partners and industry experts joined the conference to discuss industry trends and hear about current product releases as well as the future direction of eCMS construction management solution. The conference included a dynamic program of hands-on workshops, live solution demonstrations, interactive presentations and open forum discussions.

The highlight of the event was a special celebration of the company's thirtieth anniversary. Paul Bonington, Vice President & Publisher ENR, McGraw-Hill Construction, and Heidi Dethloff, Vice President, Business Partner & Mid-Market Marketing, IBM North America, joined Computer Guidance customers and employees as they recognized the company's continued success and leadership over the last three decades.

"We are very pleased with the attendance at this year's conference and the momentum that we have created around our new eCMS solution release, v.4.0." said Roger D. Kirk, President and CEO, Computer Guidance Corporation. "Our partners' and clients' feedback confirmed that our product strategy is on target and we expect great results from our newly developed solution offerings."

About Computer Guidance Corporation

Since 1981, Computer Guidance offers the most complete, proven and reliable construction management solution for architecture, engineering and commercial construction companies. Computer Guidance's eCMS solution provides financial accounting and project management applications supported by advanced business intelligence and innovative productivity tools. eCMS is recognized as the solution of choice for top general and specialty contractors in the CFMA Information Technology Survey and has been selected by the Associated General Contractors of America (AGC) as the construction management solution of choice for its members nationwide since 2010. Computer Guidance customers are recognized among the Top 400 Contractors and Top 50 Contractors by Engineering News-Record (ENR). Computer Guidance is a strategic technology partner with IBM Corporation, providing a solid technology foundation for both its hosted and enterprise solutions.
