The Rudolph/Libbe Companies, Inc. Selects eCMS
Computer Guidance Solution Wins Against Competitive Products

Scottsdale, Arizona – August 9, 2011 – Computer Guidance Corporation, the leading developer of financial and project management software solutions for architecture, engineering and construction companies, today announced that The Rudolph/Libbe Companies, Inc. has selected eCMS v.4.0 for the management of its broad range, multi-location general contracting business.

Founded in 1955, The Rudolph/Libbe Companies, Inc. (Rudolph/Libbe, Inc and GEM Inc.) together is one of the largest privately-held construction firms in the Midwest and continually ranks on the Engineering-News Record's top lists providing services such as general building construction, electrical, mechanical, maintenance and facility-related services.

“In order for our organization to stay competitive and improve our business processes and overall performance, we decided to make further investments in advanced and innovative technology solutions.” stated Brian Zientek, Chief Financial Officer, Rudolph/Libbe Inc. “After an in-depth review of numerous enterprise resource planning solutions, we chose Computer Guidance's eCMS solution for its enterprise-class feature and functionality set as well as for its reliability and scalability, thus meeting our unique business needs.”

“Our competition has become stronger over the past couple of years and we understand that in order to keep our leadership position, we need to stay committed to our aggressive and innovative product strategy.” stated Roger D. Kirk, President/CEO, Computer Guidance Corporation. “And, as we have done so during the past thirty years, Computer Guidance will continue to thrive as a leader providing enterprise construction management solution to its customers.”

About Computer Guidance Corporation

Since 1981, Computer Guidance offers the most complete, proven and reliable construction management solution for architecture, engineering and commercial construction companies. Computer Guidance's eCMS solution provides financial accounting and project management applications supported by advanced business intelligence and innovative productivity tools. eCMS is recognized as the solution of choice for top general and specialty contractors in the CFMA Information Technology Survey and has been selected by the Associated General Contractors of America (AGC) as the construction management solution of choice for its members nationwide since 2010. Computer Guidance customers are recognized among the Top 400 Contractors and Top 50 Contractors by Engineering News-Record (ENR). Computer Guidance is a strategic technology partner with IBM Corporation, providing a solid technology foundation for both its hosted and enterprise solutions.
