Owen-Ames-Kimball Co. Commits To Hosted eCMS

Owen-Ames-Kimball Renews Partnership With Computer Guidance Corporation

Scottsdale, Arizona – August 16, 2011 – Computer Guidance Corporation, the leading developer of construction financial and project management software solutions for architecture, engineering and construction companies, today announced that Owen-Ames-Kimball Co. has committed to Hosted eCMS construction management solution for the management of its general contracting, construction management and design-build services.

“We have been utilizing Computer Guidance’s construction management solution since 1998. We are pleased with the solution, yet we look forward to receiving the additional benefits that Hosted eCMS and later product versions will provide.” stated John LaBarge, Chief Financial Officer, Owen-Ames-Kimball Co. “Our goal is to minimize our paper-intensive processes and move to an enterprise resource planning solution that has integrated document imaging, workflow, archival and forms management applications. We look forward to reducing our information handling costs and improving our business processes and company-wide communication.”

“Improved productivity and clear communication leads to satisfied employees and clients. Our eCMS solution, with a fully integrated Enterprise Content Management solution, will enable Owen-Ames-Kimball to be more effective in both of these areas while improving profitability.” stated Roger D. Kirk, President/CEO, Computer Guidance Corporation.

About Computer Guidance Corporation

Since 1981, Computer Guidance offers the most complete, proven and reliable construction management solution for architecture, engineering and commercial construction companies. Computer Guidance’s eCMS solution provides financial accounting and project management applications supported by advanced business intelligence and innovative productivity tools. eCMS is recognized as the solution of choice for top general and specialty contractors in the CFMA Information Technology Survey and has been selected by the Associated General Contractors of America (AGC) as the construction management solution of choice for its members nationwide since 2010. Computer Guidance customers are recognized among the Top 400 Contractors and Top 50 Contractors by Engineering-News Record (ENR). Computer Guidance is a strategic technology partner with IBM Corporation, providing a solid technology foundation for both its hosted and enterprise solutions.
