**Aireko Enterprises Selects Enterprise eCMS**

*Puerto Rico-based Construction Services Enterprise Signs With Computer Guidance Corporation*

Scottsdale, Arizona – October 18, 2011 – Computer Guidance Corporation, the leading developer of financial and project management software solutions for architecture, engineering and construction companies, today announced that Aireko Enterprises signed an agreement for Enterprise eCMS.

“After evaluating several construction management solutions available in the market, we selected Computer Guidance’s Enterprise eCMS construction management solution as it is the best fit for our multidisciplinary construction solution offerings, including general, civil, mechanical and electrical construction.” stated Josen Rossi, President, Aireko Enterprises. “We needed a solution that is able to manage all aspects of our business from core financials, project collaboration to service management.”

Founded in 1963, Aireko Enterprises has evolved into an integrated construction services company in Puerto Rico and the Caribbean Basin. The multi-business unit company leverages a total construction solution approach including design, site selection, financial planning, general and building contracting, construction management and facility maintenance while providing the ability to tailor its services to individual client needs.

“We place our trust in Computer Guidance for the management of our comprehensive business operations based on their reliable technology platform and proven solution offering.” stated Luis Roman, Controller, Aireko Enterprises.

“Our eCMS construction management solution has been the solution of choice for many contractors with diverse and multidisciplinary business needs. Aireko Enterprises’ selection of our Enterprise eCMS solution is a further testament that eCMS provides the most complete construction management solution for their continued success.” stated Roger D. Kirk, President/CEO, Computer Guidance Corporation.”

**About Computer Guidance Corporation**

Since 1981, Computer Guidance offers the most complete, proven and reliable construction management solution for architecture, engineering and commercial construction companies. Computer Guidance’s eCMS solution provides financial accounting and project management applications supported by advanced business intelligence and innovative productivity tools. eCMS is recognized as the solution of choice for top general and specialty contractors in the CFMA Information Technology Survey and has been selected by the Associated General Contractors of America (AGC) as the construction management solution of choice for its members nationwide since 2010. Computer Guidance customers are recognized among the Top 400 Contractors and Top 50 Contractors by Engineering-News Record (ENR). Computer Guidance is a strategic technology partner with IBM Corporation, providing a solid technology foundation for both its hosted and enterprise solutions.
