M.C. Dean, Inc. Renews Partnership With Computer Guidance
Electrical Design-build and Systems Integration Firm Selects Enterprise eCMS

Scottsdale, Arizona – October 25, 2011 – Computer Guidance Corporation, the leading developer of financial and project management software solutions for architecture, engineering and construction companies, today announced that M.C. Dean, Inc. signed an agreement for Enterprise eCMS.

Established in 1949, M.C. Dean, Inc. is the nation's premier electrical design-build and systems integration firm for complex, mission-critical projects with additional services including electrical, electronic security, telecommunications, life-safety, instrumentation and control, and command and control systems. M.C. Dean serves diverse markets from universities high tech and biotech firms, federal, state, and local government clients to many other organizations with large scale, complex, and mission-critical infrastructure needs.

"We decided to upgrade to Computer Guidance's latest Enterprise eCMS construction management solution as not only has it been a solid and reliable construction management solution for the past 24 years, but Computer Guidance continues to bring to market feature-rich applications and value-added functionality that allows our company to benefit from continuous improvements in productivity, operational efficiency and customer service." stated Doug Cummins, Chief Financial Officer, M.C. Dean, Inc.

"Computer Guidance's eCMS solution is built on a reliable and proven technology platform and it is extremely flexible to integrate with. We have customized many of our business processes and developed integrated applications with eCMS, and we wanted to seamlessly carry these forward while taking advantage of the new features and functionality for added benefit. With eCMS, we are confident that our most critical business operations are supported by a solid, easy-to-manage and high-performance IT environment." stated Jalal Raham, MIS Director, M.C. Dean, Inc.

"Our commitment to bringing forth continued innovation and feature-rich applications for our customers is supported by the recent launch of our next generation of our solution, eCMS v.4.0." stated Roger D. Kirk, President/CEO, Computer Guidance Corporation. "With more than 100 new features and enhancements, eCMS v.4.0 will benefit any commercial construction company with increased productivity and improved efficiency."

About Computer Guidance Corporation

Since 1981, Computer Guidance offers the most complete, proven and reliable construction management solution for architecture, engineering and commercial construction companies. Computer Guidance's eCMS solution provides financial accounting and project management applications supported by advanced business intelligence and innovative productivity tools. eCMS is recognized as the solution of choice for top general and specialty contractors in the CFMA Information Technology Survey and has been selected by the Associated General Contractors of America (AGC) as the construction management solution of choice for its members nationwide since 2010. Computer Guidance customers are recognized among the Top 400 Contractors and Top 50 Contractors by Engineering-News Record (ENR). Computer Guidance is a strategic technology partner with IBM Corporation, providing a solid technology foundation for both its hosted and enterprise solutions.
