**Skanska USA Civil Successfully Completes eCMS v.3.7.0 Implementation**  
*Leading Civil Construction Contractor Deploys eCMS At All Regions*

Scottsdale, Arizona – November 1, 2011 – Computer Guidance Corporation, the leading developer of financial and project management software solutions for architecture, engineering and construction companies, recently completed the implementation of its eCMS construction management solution for Skanska USA Civil. Skanska USA Civil, headquartered in New York, is one of the largest civil construction companies in the country providing public and private clients construction services in the civil, mechanical, industrial, marine, foundation and environmental sectors in select U.S. markets.

“The ability to have a single enterprise-wide solution that manages all of our accounting, change orders, job cost, payroll, equipment allocation and utilization as well as consolidated financial reporting activities was a requirement in our decision to standardize all of our regions across the US on eCMS.” stated David Spaker, Director of IT, ERP Systems, Skanska USA Civil. “Computer Guidance has made significant improvements in eCMS v.3.7.0. The advanced functionality of eCMS enables us to streamline our operations and workflow and implement best practices.”

“The Skanska USA Civil implementation is a testament to the flexibility and adaptability of our eCMS solution in support of complex, yet innovative business processes.” stated Roger D. Kirk, President/CEO, Computer Guidance Corporation. “We are pleased to work with the Skanska USA Civil team throughout the multi-phase implementation process and look forward to the efficiency gains they will realize as a result of our solution.”

**About Computer Guidance Corporation**

Since 1981, Computer Guidance offers the most complete, proven and reliable construction management solution for architecture, engineering and commercial construction companies. Computer Guidance’s eCMS solution provides financial accounting and project management applications supported by advanced business intelligence and innovative productivity tools. eCMS is recognized as the solution of choice for top general and specialty contractors in the CFMA Information Technology Survey and has been selected by the Associated General Contractors of America (AGC) as the construction management solution of choice for its members nationwide since 2010. Computer Guidance customers are recognized among the Top 400 Contractors and Top 50 Contractors by Engineering-News Record (ENR). Computer Guidance is a strategic technology partner with IBM Corporation, providing a solid technology foundation for both its hosted and enterprise solutions.
