**Bay Ltd., A Berry Company, Selects eCMS**  
*eCMS To Standardize Financial and Operations Management Across The Enterprise*

Scottsdale, Arizona – March 6, 2012 – Computer Guidance Corporation, the leading developer of construction financial and project management software solutions for architecture, engineering and construction companies, today announced that Bay Ltd., A Berry Company, has executed a multi-year agreement with Computer Guidance Corporation for its construction enterprise resource planning solution, eCMS. eCMS will form the backbone of the company's financial management and reporting infrastructure.

Bay Ltd., with offices and operations throughout the U.S., Latin America, Canada, and other International locations, is a full-service multi-discipline construction, fabrication, and maintenance contractor. The company provides services to industries involved in refining, chemical and petrochemical manufacturing, gas processing and transmission, offshore exploration and production, power generation, and refined products storage and transmission. The company also provides infrastructure services, such as building roads, highways, bridges, and marine facilities for local, state, and federal governments as well as private industry. When looking for a software solution to aid in managing their multi-faceted and growing business, they turned to Computer Guidance Corporation.

The Bay Ltd. implementation will focus on core financials, human capital management, equipment management, business intelligence and project management from Computer Guidance. The implementation strategy will involve a host of professional services, including business process consulting, data conversion from multiple ancillary systems and comprehensive user training.

"Customers such as Bay Ltd. continue to select Computer Guidance as the foundation of their corporate technology strategy which validates our market position as the most complete, proven, and reliable construction management solution today," said Roger D. Kirk, President and CEO, Computer Guidance Corporation.

**About Computer Guidance Corporation**

Since 1981, Computer Guidance offers the most complete, proven and reliable construction management solution for architecture, engineering and commercial construction companies. Computer Guidance's eCMS solution provides financial accounting and project management applications supported by advanced business intelligence and innovative productivity tools. eCMS is recognized as the solution of choice for top general and specialty contractors in the CFMA Information Technology Survey and has been selected by the Associated General Contractors of America (AGC) as the construction management solution of choice for its members nationwide since 2010. Computer Guidance customers are recognized among the Top 400 Contractors and Top 50 Contractors by Engineering News-Record (ENR). Computer Guidance is a strategic technology partner with IBM Corporation, providing a solid technology foundation for both its hosted and enterprise solutions.
