

Summit Contracting, LLC Selects eCMS ERP Solution For Continued Growth
Computer Guidance Corporation Welcomes New Customer

Scottsdale, Arizona – June 19, 2012 – Computer Guidance Corporation, the leading developer of construction financial and project management software solutions for architecture, engineering and construction companies, today announced that Summit Contracting, LLC has selected eCMS enterprise resource planning solution to drive growth for its industrial, environmental and civil construction services operating across multiple business units.

“We wanted an enterprise resource planning solution that could handle the unique and comprehensive requirements of our businesses, providing real-time visibility into our financial and operational performance.” stated Andy Shoulders, Senior Vice President of Finance and Administration, Summit Contracting, LLC “After reviewing a number of solutions available in the market, we determined that eCMS was best suited towards our business needs, bringing us the flexibility and scalability we needed to deliver on our growth strategy.”

The environmental, heavy civil and specialty construction company, providing project management, scheduling, estimating, construction management, and remedial design-build expertise, will utilize eCMS construction enterprise resource planning solution to obtain a single source of consistent and accurate data for the management of its four multi-disciplinary business units. Summit Contracting, LLC will leverage core financial, business intelligence, time and material billing, payroll, human resources, project management and enterprise content management applications to standardize business processes and share resources across its operations.

“Computer Guidance’s experience in delivering industry-leading construction accounting applications supported by the capability of union and non-union payroll processing and reporting was a determining factor in our decision.” added Lisa Hancock, Vice President, Summit Contracting, LLC.

“We are pleased with the response that our eCMS v.4.0 enterprise resource planning solution is receiving in the marketplace.” stated Michael Bihlmeier, President, Computer Guidance Corporation. “Building on our core competency of construction financial management, eCMS v.4.0 brings powerful productivity solutions with our business intelligence and analytics as well as enterprise content management.”

About Computer Guidance Corporation

Since 1981, Computer Guidance offers the most complete, proven and reliable construction management solution for architecture, engineering and commercial construction companies.
