

Computer Guidance Corporation Appoints Michael C. Bihlmeier As President
Executive Appointment To Support Company's Growth Strategy

Scottsdale, Arizona – June 20, 2012 – Computer Guidance Corporation, the leading developer of construction financial and project management software solutions for architecture, engineering and construction companies, today announced the appointment of Michael C. Bihlmeier to the position of President of Computer Guidance Corporation.

While serving as Chief Operating Officer, Michael Bihlmeier has leveraged his experience and knowledge in managing entrepreneurial software development companies to lead several strategic initiatives aimed at process re-engineering and in enhancing customer relationship.

Michael's promotion to the position of President will expand his role leading Computer Guidance's operations and solidifying the company's relationship with its customers. This appointment supports Computer Guidance's growth strategy enabling the company to further strengthen its position as a leading provider of construction enterprise resource planning software solutions and services.

"I am thrilled to be part of an organization that is committed to deliver the best-in-class solutions and services to its customers," stated Michael C. Bihlmeier, President, Computer Guidance Corporation. "The opportunities that lie ahead are exciting and I look forward to working with the team to develop and execute a roadmap to achieve the next phase of growth for the company."

"Michael brings operational expertise that will help Computer Guidance in achieving its business objectives," stated Roger D. Kirk, CEO, Computer Guidance Corporation. "I look forward to Michael's continued contributions to the organization and his leadership role."

About Computer Guidance Corporation

Since 1981, Computer Guidance offers the most complete, proven and reliable construction management solution for architecture, engineering and commercial construction companies. Computer Guidance's eCMS solution provides financial accounting and project management applications supported by advanced business intelligence and innovative productivity tools. eCMS is recognized as the solution of choice for top general and specialty contractors in the CFMA Information Technology Survey and has been selected by the Associated General Contractors of America (AGC) as the construction management solution of choice for its members nationwide since 2010. Computer Guidance customers are recognized among the Top 400 Contractors and Top 50 Contractors by Engineering News-Record (ENR). Computer Guidance is a strategic technology partner with IBM Corporation, providing a solid technology foundation for both its hosted and enterprise solutions.
