Textura and Computer Guidance Establish Partnership

Computer Guidance Offers Seamless Integration for Clients of Textura—Construction Payment Management

Scottsdale, Arizona – July 10, 2012 – Computer Guidance Corporation, the leading developer of financial and project management software solutions for architecture, engineering and construction companies, today announced forming a strategic partnership with Textura Corporation, the leading provider of collaboration solutions for the construction industry.

“We offer our clients the opportunity to improve operational efficiencies, increase productivity and manage their profitability more effectively,” stated Roger D. Kirk, Chief Executive Officer, Computer Guidance Corporation. “We look to partner with other companies that can help us further enhance our clients’ performance. The partnership with Textura enables integration of their market-leading contractor invoicing and payment application, Construction Payment Management (CPM), with our clients’ eCMS systems for greater automation.”

“This partnership offers tremendous benefits to our clients who want to embrace Computer Guidance’s new generation eCMS construction management solution,” said Patrick Allin, Chairman and CEO, Textura Corporation. “Our new integration capability allows greater communication and collaboration between our clients and their subcontractors. Many of our current eCMS clients have been clamoring for this integration. We are delighted that we can now provide it.”

“This partnership represents collaboration between two industry-leading organizations that are committed to providing our clients with a competitive advantage and high levels of service. We have an exciting roadmap planned to move the integration to web services for a seamless experience. Our mutual customers will greatly benefit from continued innovation and additional functionality” added Kirk.

About Computer Guidance Corporation

Since 1981, Computer Guidance offers the most complete, proven and reliable construction management solution for architecture, engineering and commercial construction companies. Computer Guidance’s eCMS solution provides financial accounting and project management applications supported by advanced business intelligence and innovative productivity tools. eCMS is recognized as the solution of choice for top general and specialty contractors in the CFMA Information Technology Survey and has been selected by the Associated General Contractors of America (AGC) as the construction management solution of choice for its members nationwide since 2010. Computer Guidance customers are recognized among the Top 400 Contractors and Top 50 Contractors by Engineering News-Record (ENR). Computer Guidance is a strategic technology partner with IBM Corporation, providing a solid technology foundation for both its hosted and enterprise solutions.
