Miron Construction Co., Inc. Selects eCMS

Computer Guidance Welcomes Miron Construction Co., Inc. an ENR Top 400 Customer

Scottsdale, Arizona – July 24, 2012 – Computer Guidance Corporation, the leading developer of construction financial and project management software solutions for architecture, engineering and construction companies, today announced that Miron Construction Co., Inc. has executed a multi-year agreement with Computer Guidance Corporation for its construction enterprise resource planning solution, eCMS. eCMS enterprise resource planning solution will form the backbone of the company's financial and business operations management.

"As we continue to engage in a variety of complex and large-scale construction design and build projects, we need a technology partner that allows us to deliver a high level of quality while scaling with our business demand." said Dean Basten, Chief Financial Officer, Miron Construction Co., Inc. "With Computer Guidance as a trusted partner delivering a proven solution, we are positioned well in the marketplace leveraging innovative and integrated technology solutions for our business."

"eCMS will serve our growing need for standardized corporate financial reporting, enterprise security capability and the alignment of our operational processes throughout our multi-location business." said Edward Ruffolo, Director of Information Technology, Miron Construction Co., Inc. "We chose Computer Guidance for its reputation of delivering advanced and reliable solutions that meet the needs of construction companies of similar size."

Miron Construction Co., Inc., ranked as the 99th Top 400 Contractor by the Engineering News-Record in 2012, is a recognized industry leader in construction management, design-build, industrial services, pre-construction and general contracting across the United States. The general contractor is headquartered in Neenah, Wisconsin, with regional offices in Madison, Wausau and Milwaukee, Wisconsin, Cedar Rapids, Iowa, Negaunee, Michigan, Virginia, and Minnesota. Miron Construction Co., Inc. will focus on core financials, human capital management and business intelligence from Computer Guidance.

"Customers such as Miron Construction Co., Inc. continue to select Computer Guidance as the foundation of their corporate technology strategy which validates our market position as the most complete, proven, and reliable construction management solution today." said Roger D. Kirk, Chief Executive Officer, Computer Guidance Corporation.

About Computer Guidance Corporation

Since 1981, Computer Guidance offers the most complete, proven and reliable construction management solution for architecture, engineering and commercial construction companies. Computer Guidance's eCMS solution provides financial accounting and project management applications supported by advanced business intelligence and innovative productivity tools. eCMS is recognized as the solution of choice for top general and specialty contractors in the CFMA Information Technology Survey and has been selected by the Associated General Contractors of America (AGC) as the construction management solution of choice for its members nationwide since 2010. Computer Guidance customers are recognized among the Top 400 Contractors and Top 50 Contractors by Engineering News-Record (ENR). Computer Guidance is a strategic technology partner with IBM Corporation, providing a solid technology foundation for both its hosted and enterprise solutions.
