**Computer Guidance Corporation Recognized As Member of Constructech 50**  
*Constructech Recognizes 50 Companies to Lead Technology Transformation*

Scottsdale, Arizona – July 26, 2012 – Computer Guidance Corporation, the leading developer of construction financial and project management software solutions for architecture, engineering and construction companies, today announced that Computer Guidance is recognized as a part of the Constructech 50, a listing of the most influential construction-technology providers with a strong and ongoing market presence, as determined by *Constructech's* editorial team.

The *Constructech* team considers various criteria when determining the *Constructech* 50 winners. Some of those criteria include having a strong product/service aimed at the construction industry, ongoing customer satisfaction and growth, as well as outreach and educational efforts for the construction industry.

“The evolution of technology solutions can shake up the marketplace. It may give newer companies a chance to establish themselves in the arena, and it can also let longtime players prove they are committed to the industry,” says Peggy Smedley, editorial director, *Constructech*. “The 2012 *Constructech* 50 exemplifies this, as a snapshot of today’s marketplace. This year’s winning companies are giving builders and contractors solid solutions on which to build, and continue to transform.”

“Computer Guidance was pleased with the recognition as a construction software provider of the *Constructech* 50 this year.” stated Mike Bihlmeier, President, Computer Guidance Corporation. “We will continue to provide our customers with innovative and best-in-class solutions to meet their business objectives.”

**About Computer Guidance Corporation**

Since 1981, Computer Guidance offers the most complete, proven and reliable construction management solution for architecture, engineering and commercial construction companies. Computer Guidance’s eCMS solution provides financial accounting and project management applications supported by advanced business intelligence and innovative productivity tools. eCMS is recognized as the solution of choice for top general and specialty contractors in the CFMA Information Technology Survey and has been selected by the Associated General Contractors of America (AGC) as the construction management solution of choice for its members nationwide since 2010. Computer Guidance customers are recognized among the Top 400 Contractors and Top 50 Contractors by Engineering News-Record (ENR). Computer Guidance is a strategic technology partner with IBM Corporation, providing a solid technology foundation for both its hosted and enterprise solutions.
