

Customer Focus 2012 User Conference Marks Great Success

Growing Interest in eCMS v.4.0 Brings Strong Customer and Partner Collaboration

Scottsdale, Arizona – July 31, 2012 – Computer Guidance Corporation, the leading developer of construction financial and project management software solutions for architecture, engineering and construction companies, welcomed record attendees for the past five years for its annual Customer Focus user conference that was held on July 18-20, 2012 at The Phoenician Resort & Spa in Scottsdale, Arizona.

Computer Guidance customers attended the three-day premier user conference to educate, share and learn about Computer Guidance eCMS applications and customer programs for improved performance and efficiencies of their business operations. Steve Sandherr, Chief Executive Officer of the Associated General Contractors (AGC) of America, Gregg Schoppman, Principal and Florida Managing Consultant from FMI Corporation and Computer Guidance customers keynoted the event providing invaluable insight and real-life examples on current industry trends and marketplace dynamics.

“Throughout the year, I attend many user conferences and industry events and I am pleased to state that Computer Guidance’s annual user conference is one of the most well-planned and well-organized events in the industry from both the content and the overall program perspective.” stated Gregg Schoppman, Principal and Florida Managing Consultant from FMI Corporation. “The Computer Guidance team, customer base and partner alliances bring together a wealth of knowledge in the form of case study presentations, panel discussions and open forums allowing participants to have a rich and informative experience.”

“It was rewarding to see the high number of attendees from both of our customers and strategic partners at this year’s customer conference.” stated Mike Bihlmeier, President, Computer Guidance Corporation. “The conversations that I had with our customers and partners validated that not only our corporate strategy, but our product development and customer services initiatives, are aligned with our customers’ expectations and delivering the successes that we are all looking for.”

About Computer Guidance Corporation

Since 1981, Computer Guidance offers the most complete, proven and reliable construction management solution for architecture, engineering and commercial construction companies. Computer Guidance’s eCMS solution provides financial accounting and project management applications supported by advanced business intelligence and innovative productivity tools. eCMS is recognized as the solution of choice for top general and specialty contractors in the CFMA Information Technology Survey and has been selected by the Associated General Contractors of America (AGC) as the construction management solution of choice for its members nationwide since 2010. Computer Guidance customers are recognized among the Top 400 Contractors and Top 50 Contractors by Engineering News-Record (ENR). Computer Guidance is a strategic technology partner with IBM Corporation, providing a solid technology foundation for both its hosted and enterprise solutions.
