Bancker Construction Commits To eCMS v.4.0 Enterprise Resource Planning
Solid Core Financial Applications and Remote Time Entry Capability Solidify Decision

Scottsdale, Arizona – August 7, 2012 – Computer Guidance Corporation, the leading developer of construction financial and project management software solutions for architecture, engineering and construction companies, today announced that Bancker Construction Corporation purchased eCMS v.4.0 enterprise resource planning for the management of its financial operations and reporting.

Bancker Construction Corporation has two distinct business operations: utility construction and electrical services. The company delivers a comprehensive set of construction services to major utilities in the New York metropolitan area while also specializing in high voltage line construction and electrical construction services in the state of New York.

“We have been utilizing Computer Guidance’s CMS solution since 1998. Computer Guidance’s construction management software has been a rock solid solution for our organization. To stay competitive in the marketplace we decided that it is time to take advantage of the new features that eCMS v.4.0 has to offer.” stated Phillip Beyer, Vice President, Bancker Construction Corporation. “We look forward to the additional financial reporting and business management features as well as eCMS’s mobile offerings.”

With the release of eCMS v.4.0, Computer Guidance Corporation introduces Mobile eCMS a remote data collection and reporting solution while also maintaining tight integration with other remote time entry partners.

“We are pleased with Bancker Construction Corporation’s decision to move forward with our latest eCMS v.4.0.” stated Mike Bihlmeier, President, Computer Guidance Corporation. “Through the power of eCMS v.4.0 and our mobile technologies, Bancker Construction Corporation will achieve significant efficiency and competitive gains.”

About Computer Guidance Corporation

Since 1981, Computer Guidance offers the most complete, proven and reliable construction management solution for architecture, engineering and commercial construction companies. Computer Guidance’s eCMS solution provides financial accounting and project management applications supported by advanced business intelligence and innovative productivity tools. eCMS is recognized as the solution of choice for top general and specialty contractors in the CFMA Information Technology Survey and has been selected by the Associated General Contractors of America (AGC) as the construction management solution of choice for its members nationwide since 2010. Computer Guidance customers are recognized among the Top 400 Contractors and Top 50 Contractors by Engineering News-Record (ENR). Computer Guidance is a strategic technology partner with IBM Corporation, providing a solid technology foundation for both its hosted and enterprise solutions.
