**Knutson Construction Commits To eCMS v.4.0 Enterprise Resource Planning Solution**  
*Advanced Features, Third-party Integrated Applications and Collaborative Partnership Drive Decision*

Scottsdale, Arizona – August 28, 2012 – Computer Guidance Corporation, the leading developer of construction financial and project management software solutions for architecture, engineering and construction companies, today announced that Knutson Construction has committed to implement eCMS v.4.0 enterprise resource planning solution for driving improved efficiencies and performance for its operations.

Knutson Construction, headquartered in Minneapolis/St. Paul, Minnesota, is one the nation's leading general contractors with a workforce of 1,000 employees and four office locations in Iowa and Minnesota. Knutson Construction is ranked as #177 on the Engineering News-Record's Top 400 Contractors and specializes in pre-construction, design/build, general contracting and construction management services. They purchased eCMS v.4.0 for its financial, project and operations management needs.

"The successes that Knutson Construction has experienced over the years have relied on collaborative partnerships with our customers and partners. We value the importance of partnerships—technology and construction services." stated Mike Wolf, Chief Financial Officer, Knutson Construction. "Computer Guidance has been an integral part of our strategic partner portfolio and we look forward to growing our relationship for years to come."

"Our decision to upgrade to eCMS v.4.0 from Computer Guidance was driven by the new advancements in business intelligence, enterprise content management and third-party integrations." added Dale Rohling, Controller, Knutson Construction. "The strategic partnership that was recently established between Computer Guidance and Textura Corporation further guided our decision as we see added value in the integrated solution offering."

Computer Guidance eCMS v.4.0 ERP solution delivers hundreds of new features facilitating the automation of key business processes of commercial contractors including document imaging, electronic workflow, financial reporting and performance management. With an intuitive graphical user interface and menu system, customers can securely navigate across over 28 eCMS applications and tightly integrated third-party solutions.

"Computer Guidance is pleased to further strengthen its relationship with Knutson Construction." stated Michael Bihlmeier, President, Computer Guidance Corporation. "Knutson Construction's commitment to eCMS v.4.0 is further evidence that when it comes to supporting large-scale construction enterprises, our solutions and services are the most complete and proven offering."

**About Computer Guidance Corporation**

Since 1981, Computer Guidance offers the most complete, proven and reliable construction management solution for architecture, engineering and commercial construction companies. Computer Guidance's eCMS solution provides financial accounting and project management applications supported by advanced business intelligence and innovative productivity tools. eCMS is recognized as the solution of choice for top general and specialty contractors in the CFMA Information Technology Survey and has been selected by the Associated General Contractors of America (AGC) as the construction management solution of choice for its members nationwide since 2010. Computer Guidance customers are recognized among the Top 400 Contractors and Top 50

Contractors by Engineering News-Record (ENR). Computer Guidance is a strategic technology partner with IBM Corporation, providing a solid technology foundation for both its hosted and enterprise solutions.
