**Rubenstein's Contract Carpet to Implement Hosted eCMS Construction ERP Solution**  
*Proven Technologies and Innovative Features Drive Continued Partnership with Computer Guidance*

Scottsdale, Arizona – February 19, 2013 – Computer Guidance Corporation, the leading developer of construction financial and project management software solutions for architecture, engineering and construction companies, today announced that Rubenstein's Contract Carpet, LLC, the leading source for commercial floor coverings in the Northwest, has committed to the implementation of Hosted eCMS for the on-going management of their company's financial operations.

"Our company has relied on Computer Guidance's construction management solutions for the past 14 years, and the proven reliability of the IBM platform along with the strength of their core financial applications has contributed to Rubenstein's continued success." said Michael Jensen, Operations Manager, Rubenstein's Contract Carpet, LLC. "Our move to Hosted eCMS will allow us to benefit from the new features and functionality that is available while not placing a burden on our IT staff with the implementation and maintenance of a new system."

"Our decision to provide eCMS in a hosted environment has been driven by the need to provide contractors with a cost effective way to gain the benefits of the latest developments in enterprise resource planning while maintaining a lower cost of ownership and minimizing the impact on IT resources and infrastructure." stated Michael Bihlmeier, President, Computer Guidance Corporation. "We have been pleased with the acceptance that this solution has gained in the market and to see our customers, such as Rubenstein's, accept it as a viable solution for their financial management needs when they look to upgrade their current solutions."

**About Computer Guidance Corporation**

Since 1981, Computer Guidance offers the most complete, proven and reliable construction management solution for architecture, engineering and commercial construction companies. Computer Guidance's eCMS solution provides financial accounting and project management applications supported by advanced business intelligence and innovative productivity tools. eCMS is recognized as the solution of choice for top general and specialty contractors in the CFMA Information Technology Survey and has been selected by the Associated General Contractors of America (AGC) as the construction management solution of choice for its members nationwide since 2010. Computer Guidance customers are recognized among the Top 400 Contractors and Top 50 Contractors by Engineering News-Record (ENR). Computer Guidance is a strategic technology partner with IBM Corporation, providing a solid technology foundation for both its hosted and enterprise solutions.
