

Mobile eCMS Available On The App Store
Mobile eCMS Approved for Use on Apple i Devices

Scottsdale, Arizona – March 21, 2013 – Computer Guidance Corporation, the leading developer of financial and project management software solutions for architecture, engineering and construction companies, today announced that its Mobile eCMS application suite has been made available through the App StoreSM for iPad® devices.

Mobile eCMS, designed specifically for users of Computer Guidance's eCMS construction enterprise resource planning solution, facilitates the collection of data for field entry of labor, equipment units and production quantities through Remote Payroll, Field Reporting and Time & Attendance mobile applications.

"The accuracy of labor and project costs is paramount to successful project management," states Michael Bihlmeier, President, Computer Guidance Corporation, "Mobile eCMS will improve our customers' management of remote workers and the quality of communication between the field and home office."

"These applications are the result of a concentrated development effort over the last year, delivering on requirements created in partnership with our customers and providing functionality not found in other solutions," states Mario Cuneo, Director of Professional Services, Computer Guidance Corporation. "It is a testament to the ingenuity and skill of our development team that Mobile eCMS has been approved for release through the App Store after its first submission."
