

Herzog Companies Implements eCMS v.4.0

Unified Solution Platform Provides Standardized Processes for all Divisions and Projects

Scottsdale, Arizona – March 26, 2013 – Computer Guidance Corporation, the leading developer of construction financial and project management software solutions for architecture, engineering and construction companies, today announced that Herzog Companies successfully implemented eCMS v.4.0 enterprise resource planning solution.

The Missouri-based contractor specializing in heavy highway/railroad construction, specialty services and transit operations began the implementation of eCMS v.4.0 less than a year ago to manage its projects in 48 states, Canada, Mexico and the Caribbean. With the recent eCMS v.4.0 go-live, Herzog leverages 18 applications from Computer Guidance's integrated ERP application suite and is looking to expand its operational capabilities by introducing additional technologies such as Mobile eCMS.

"We have been working to implement technologies that sustain our growth strategy and business model without interrupting our business operations," said Ryan Van Meter, Director of Risk Management and Finance, at Herzog Companies. "The implementation of eCMS v.4.0 provided us not only the solutions our business required but the ability to quickly and easily bring our divisions and employees online."

"We are proud to be playing a key role in supporting Herzog Companies' growth strategy and recent operational expansion, both geographically and into new vertical markets," said Roger D. Kirk, Chief Executive Officer, Computer Guidance Corporation. "Deploying key applications of our integrated eCMS enterprise resource planning solution will enable Herzog Companies to deliver on its promises to customers while controlling expenses."

About Computer Guidance Corporation

Since 1981, Computer Guidance offers the most complete, proven and reliable construction management solution for architecture, engineering and commercial construction companies. Computer Guidance's eCMS solution provides financial accounting and project management applications supported by advanced business intelligence and innovative productivity tools. eCMS is recognized as the solution of choice for top general and specialty contractors in the CFMA Information Technology Survey and has been selected by the Associated General Contractors of America (AGC) as the construction management solution of choice for its members nationwide since 2010. Computer Guidance customers are recognized among the Top 400 Contractors and Top 50 Contractors by Engineering News-Record (ENR). Computer Guidance is a premier business partner of IBM Corporation, providing a solid technology foundation for both its cloud-based, hosted and on-premise, enterprise solutions.
