

George Shaeffer Construction Company Signs With Computer Guidance *Integrated Construction Financial and Project Management Software To Drive Growth*

Scottsdale, Arizona – April 9, 2013 – Computer Guidance Corporation, the leading developer of construction financial and project management software solutions for architecture, engineering and construction companies, today announced that George Shaeffer Construction Company has selected Hosted eCMS construction enterprise resource planning solution for their rapidly growing business.

George Shaeffer Construction Company located in Vail, Colorado, is a growing general building contractor, specializing in luxury home, residential and commercial building construction with emphasis on green building practices, unsurpassed quality and fine craftsmanship. Since 1979, GSCC has built some of the most distinctive projects through the use of environmentally friendly materials and aesthetically pleasing designs.

Hosted eCMS will provide George Shaeffer Construction Company with an integrated solution set for automated payroll, job costing, time and material billing, financial reporting and project management leveraging the flexibility and scalability of the cloud software deployment model. The organization will further employ Computer Guidance's business intelligence and productivity tools for improved efficiencies and productivity.

David Hyde, President, George Shaeffer Construction Company states "We selected Computer Guidance because we were looking for a robust, easy to use, integrated construction accounting and project management solution. eCMS with Cognos Business Intelligence and Project Collaborator is that solution."

"George Shaeffer Construction Company was looking for a construction management solution that would allow them to manage small and large jobs from start to finish with the ability to deliver real-time operational and financial information on demand to all project stakeholders," adds Computer Guidance Solution Engineer, Jon Bruce. "With eCMS, they can accomplish these goals and ready their business for continued expansion and growth in the future."

About Computer Guidance Corporation

Since 1981, Computer Guidance offers the most complete, proven and reliable construction management solution for architecture, engineering and commercial construction companies. Computer Guidance's eCMS solution provides financial accounting and project management applications supported by advanced business intelligence and innovative productivity tools. eCMS is recognized as the solution of choice for top general and specialty contractors in the CFMA Information Technology Survey and has been selected by the Associated General Contractors of America (AGC) as the construction management solution of choice for its members nationwide since 2010. Computer Guidance customers are recognized among the Top 400 Contractors and Top 50 Contractors by Engineering News-Record (ENR). Computer Guidance is a premier business partner of IBM Corporation, providing a solid technology foundation for both its cloud-based, hosted and on-premise, enterprise solutions.
