

## **Parsons Electric Implements Computer Guidance's eCMS v.4.0 ERP**

*ENR Top 600 Specialty Contractor Aims To Achieve Greater Business Process Efficiency*

Scottsdale, Arizona – October 8, 2013 – Computer Guidance Corporation, the leading developer of construction financial and project management software solutions for architecture, engineering and construction companies, today announced that Parsons Electric has completed a seamless implementation of eCMS v.4.0 construction enterprise resource planning (ERP) solution with the objective to integrate all aspects of its business operations into a single, all-encompassing software system.

“We have been a Computer Guidance customer since 1999 and have been utilizing eCMS for our core accounting business processes and financial reporting needs.” stated Jeff Moryn, Chief Information Officer, Parsons Electric. “With the eCMS v.4.0 upgrade, we look to bring all of our software functionality needs into a single enterprise platform, including document imaging and workflow, reporting, remote payroll collection and more.”

Since 1927, Parsons Electric has grown to become one of North America's premier electrical and technology contractors, expanding its services offerings into three divisions—Electrical Construction, Electrical Service and Technologies—and delivering unparalleled service to its customers. The organization has also expanded the use of technology for its business operations. With the recent ERP upgrade, Parsons Electric will leverage over 18 applications from Computer Guidance alone, including the Enterprise Content Management application suite, Mobile eCMS, Business Intelligence & Analytics, Human Resources Self Service and more.

“eCMS v.4.0 was designed to expand the core functionality of our ERP solution by adding hundreds of new features and many new applications in order for us to stay competitive in the marketplace while responding to the needs of our customers.” stated Roger D. Kirk, Chief Executive Officer, Computer Guidance Corporation. “We are pleased to see our customers, like Parsons Electric, taking full advantage of eCMS v.4.0's rich functionality with the purpose of optimizing their business to its full potential.”

### **About Computer Guidance Corporation**

Since 1981, Computer Guidance offers the most complete, proven and reliable construction management solution for architecture, engineering and commercial construction companies. Computer Guidance's eCMS solution provides financial accounting and project management applications supported by advanced business intelligence and innovative productivity tools. eCMS is recognized as the solution of choice for top general and specialty contractors in the CFMA Information Technology Survey and has been selected by the Associated General Contractors of America (AGC) as the construction management solution of choice for its members nationwide since 2010. Computer Guidance customers are recognized among the Top 400 Contractors and Top 50 Contractors by Engineering News-Record (ENR). Computer Guidance is a premier business partner of IBM Corporation, providing a solid technology foundation for both its cloud-based, hosted and on-premise, enterprise solutions.
