

**Knutson Construction Receives Recognition At The *Constructech* 2013 Vision Awards**  
*Integrated Construction ERP and Construction Payment Management Software Win Gold Vision Award*

Scottsdale, Arizona – October 15, 2013 – Computer Guidance Corporation, the leading developer of financial and project management software solutions for architecture, engineering and construction companies, today announced that Textura Corporation, strategic technology partner and Computer Guidance Corporation were recognized as technology providers for Knutson Construction Services win on October 4, 2013 in Santa Clara, California at the *Constructech* Vision Awards.

The *Constructech* Vision Awards acknowledge companies that have stayed up to date on the latest trends and products in order to make decisions that have helped their business succeed and thrive. Alongside these winners, the hardware and software suppliers that play a vital role helping the finalists achieve their goals were honored as well.

Knutson Construction Services was recognized in the Builder/General Contractor with revenues of \$251 million to \$500 million category for their innovative approach utilizing technology for improved business processes and customer satisfaction. Computer Guidance's eCMS Connect for Textura—CPM solution, an integrated product of Computer Guidance's eCMS construction ERP and Textura's CPM software, earned Knutson Construction a Gold Vision Award.

"This year's competition brought forth companies that have shown great devotion to pushing their companies forward using modern technology," says Peggy Smedley, editorial director, *Constructech*. "That is exactly what is so great about the Vision Awards. It brings to light the companies that have implemented innovation and have obtained notable success in the industry."

"Knutson Construction Services is always looking for ways to introduce innovative technologies for improved business processes and enhanced customer services," stated Dale Rohling, Accounting Manager, Knutson Construction Services. "We wanted to centralize our financial accounting and subcontractor payment application processes, including collection of subcontractor invoices and lien waivers, review and approval of payment applications and processing of electronic payments to the subcontractors and suppliers. We are pleased with the success that eCMS Connect for Textura—CPM has brought to our organization and are honored with the Vision Award recognition."

"Computer Guidance was pleased with the recognition as a leader in delivering construction enterprise-class software for the industry and we are equally pleased with the partnership that we have established with our long-term customer, Knutson Construction Services and strategic technology partner, Textura Corporation," stated Mike Bihlmeier, President, Computer Guidance Corporation. "We will continue to provide our customers with innovative and best-in-class solutions to meet their business objectives."

**About Computer Guidance Corporation**
