

## **Weis Builders Goes Live on eCMS v.4.0**

*Computer Guidance Construction ERP Software To Improve General Contractor's Business Operations*

Scottsdale, Arizona – October 22, 2013 – Computer Guidance Corporation, the leading developer of construction financial and project management software solutions for architecture, engineering and construction companies, today announced that Weis Builders, an ENR Top 400 general contractor serving various market segments in the states of Minnesota, Illinois and Texas, has successfully deployed Computer Guidance 's construction enterprise resource planning (ERP) solution to take advantage of the new features and functionality made available with the latest product release.

The Minnesota-based general contractor specializing in multi-unit residential, senior living, hospitality, retail, commercial and healthcare design/build, general contracting and construction management began the implementation of eCMS v.4.0 four months ago. With the recent eCMS v.4.0 go-live, Weis Builders utilizes 15 applications from Computer Guidance's integrated ERP application suite and is looking to expand its use of technology by introducing additional applications such as Enterprise Content Management and Cognos Business Intelligence & Analytics.

"We are pleased with the seamless and quick implementation." said Scott Reid, Chief Technology Officer, Weis Builders. "With the web-based access and cloud-based deployment of the ERP, we have seen tremendous gains in the utilization and allocation of our IT resources and these just made the ERP upgrade transparent to our organization."

"The partnership we have established with Computer Guidance over the years has pressed our organization to become better in every area of the business. Their flagship ERP release, eCMS v.4.0, is definitely taking us to the next level with the advanced dashboard and reporting capability and integrated content management applications." commented Cassie Warner, Chief Financial Officer, Weis Builders. "We are looking forward to using the new functionality available in eCMS v.4.0"

"We applaud Weis Builders for their innovative approach to technology." noted Mike Bihlmeier, President, Computer Guidance Corporation. "Their commitment to ongoing improvements of their business operations through the use of technology solutions is a great example to many of us in the industry."

### **About Computer Guidance Corporation**

Since 1981, Computer Guidance offers the most complete, proven and reliable construction management solution for architecture, engineering and commercial construction companies. Computer Guidance's eCMS solution provides financial accounting and project management applications supported by advanced business intelligence and innovative productivity tools. eCMS is recognized as the solution of choice for top general and specialty contractors in the CFMA Information Technology Survey and has been selected by the Associated General Contractors of America (AGC) as the construction management solution of choice for its members nationwide since 2010.
