

Jones Automatic Sprinkler Implements eCMS v.4.0 Construction ERP

Long-term Customer Selects Hosted eCMS for Advanced Functionality and Ease of Access

Scottsdale, Arizona – December 3, 2013 – Computer Guidance Corporation, the leading developer of construction financial and project management software solutions for architecture, engineering and construction companies, today announced that Jones Automatic Sprinkler, Inc., a specialty contractor providing commercial fire sprinkler protection systems in Georgia and Alabama, has completed the implementation of their Hosted eCMS v.4.0 construction enterprise resource planning solution.

Jones Automatic Sprinkler will leverage Computer Guidance's core financial applications in addition to Job Cost, Order Processing, Purchasing, Payroll, Human Resources, Time & Material Billing, Cognos Business Intelligence and Analytics, and Enterprise Content Management.

"Our decision to move from our legacy solution was driven by the need to find a solution that was accessible to our employees both in the office and in the field." states Tony Smith, Controller, Jones Automatic Sprinkler, Inc. "Computer Guidance Corporation has surpassed our expectations with their new user interface and integrated Business Intelligence dashboard, making the information that is critical to our success immediately visible and making it simple for our users to drill down for more specific data and supporting documentation."

"Making information accessible when and where needed is an essential function of any construction management solution." stated Michael Bihlmeier, President, Computer Guidance Corporation. "One of our primary focuses with eCMS v.4.0 was to build a user experience that is both intuitive and inviting so that our customers are comfortable working with the software and can quickly and easily access the information they need to complete their jobs."

About Computer Guidance Corporation

Since 1981, Computer Guidance offers the most complete, proven and reliable construction management solution for architecture, engineering and commercial construction companies. Computer Guidance's eCMS solution provides financial accounting and project management applications supported by advanced business intelligence and innovative productivity tools. eCMS is recognized as the solution of choice for top general and specialty contractors in the CFMA Information Technology Survey and has been selected by the Associated General Contractors of America (AGC) as the construction management solution of choice for its members nationwide since 2010. Computer Guidance customers are recognized among the Top 400 Contractors and Top 50 Contractors by Engineering News-Record (ENR). Computer Guidance is a premier business partner of IBM Corporation, providing a solid technology foundation for both its cloud-based, hosted and on-premise, enterprise solutions.
