

MHS Legacy Group Goes Live With Computer Guidance ERP

Long-term Customer Embraces the New Functionality and Applications to Support Their Expanding Business

Scottsdale, Arizona – January 28, 2014 – Computer Guidance Corporation, the leading developer of construction financial and project management software solutions for architecture, engineering and construction companies, today announced the commitment from MHS Legacy Group to upgrade to its flagship construction enterprise resource planning solution, eCMS v.4.0. MHS Legacy Group, a diversified national holding company, has subsidiaries in commercial and industrial roofing and siding, metal and phenolic fabrication, installation of industrial and commercial insulation, and scaffold erection.

MHS Legacy Group has selected an on-premise installation with Computer Guidance's on-premise eCMS solution, focusing on core financials, Job Cost, Payroll, Time & Material Billing, Human Resources, Order Processing, Purchasing, Enterprise Content Management, Cognos Business Intelligence and Analytics and eForms electronic form generation and processing.

"We are excited about the advanced technology and new functionality that comes with our upgrade to eCMS v.4.0 and how it will help us to better manage our business," states Connie Buehner, Accounting Manager, MHS Legacy Group. "Computer Guidance Corporation has supported our company with centralized processing and reporting for many years, and now with eCMS v.4.0 we anticipate this trend continuing with new applications such as Cognos Business Intelligence and Analytics and Mobile eCMS."

"Computer Guidance has long been known as a company that is innovative and forward looking, bringing new technologies to commercial contractors that allow better control over their finances and projects," states Roger D. Kirk, Chief Executive Officer, Computer Guidance Corporation. "Our continuing investment in research and development of these technologies and the launch of applications such as our Human Resources Self Service, Mobile eCMS and Cognos Dashboards proves to our customers that we can provide the tools necessary for their success both today and in the future."

About Computer Guidance Corporation

Since 1981, Computer Guidance offers the most complete, proven and reliable construction management solution for architecture, engineering and commercial construction companies. Computer Guidance's eCMS solution provides financial accounting and project management applications supported by advanced business intelligence and innovative productivity tools. eCMS is recognized as the solution of choice for top general and specialty contractors in the CFMA Information Technology Survey and has been selected by the Associated General Contractors of America (AGC) as the construction management solution of choice for its members nationwide since 2010. Computer Guidance customers are recognized among the Top 400 Contractors and Top 50 Contractors by Engineering News-Record (ENR). Computer Guidance is a premier business partner of IBM Corporation, providing a solid technology foundation for both its cloud-based, hosted and on-premise, enterprise solutions.
