Knutson Construction Implements Construction ERP From Computer Guidance
Hosted eCMS For Increased Visibility and Efficiency Across The Enterprise

Scottsdale, Arizona – February 11, 2014 – Computer Guidance Corporation, the leading developer of construction financial and project management software solutions for architecture, engineering and construction companies, today announced that Knutson Construction has successfully implemented Computer Guidance’s eCMS v.4.0 construction ERP in the cloud.

Knutson Construction, headquartered in Minneapolis/St. Paul, Minnesota, is one of the nation’s leading general contractors with a workforce of 400 employees and four office locations in Iowa and Minnesota. Knutson Construction is ranked as #177 on the Engineering News-Record’s Top 400 Contractors and specializes in pre-construction, design/build, general contracting and construction management services.

“After in-depth analysis of Computer Guidance’s ERP deployment options, we selected Hosted eCMS for its ease of deployment and management and for its cost-effective pricing.” stated Dale Rohling, Accounting Manager, Knutson Construction. “We are very pleased with our decision to take our construction ERP to the cloud allowing increased visibility and efficiency for our organization by focusing our efforts solely on the business applications instead of devoting time toward IT infrastructure management.”

“We are pleased to see so many of our customers embracing our hosted, cloud-based ERP deployment option. By providing our customers with scalable and flexible ERP deployment options, we are enabling them to realize cost-savings, productivity gains and speed-to-implementation benefits.” stated Mike Bihlmeier, President, Computer Guidance Corporation.

About Computer Guidance Corporation

Since 1981, Computer Guidance offers the most complete, proven and reliable construction management solution for architecture, engineering and commercial construction companies. Computer Guidance’s eCMS solution provides financial accounting and project management applications supported by advanced business intelligence and innovative productivity tools. eCMS is recognized as the solution of choice for top general and specialty contractors in the CFMA Information Technology Survey and has been selected by the Associated General Contractors of America (AGC) as the construction management solution of choice for its members nationwide since 2010. Computer Guidance customers are recognized among the Top 400 Contractors and Top 50 Contractors by Engineering News-Record (ENR). Computer Guidance is a premier business partner of IBM Corporation, providing a solid technology foundation for both its cloud-based, hosted and on-premise, enterprise solutions.
