

Gulf Island Fabrication, Inc. Implements Computer Guidance Construction ERP

Integrated, Enterprise-class Construction Software for Tighter Financial Control and Improved Operations

Scottsdale, Arizona – February 25, 2014 – Computer Guidance Corporation, the leading developer of financial and project management software solutions for architecture, engineering and construction companies, today announced that Gulf Island Fabrication, Inc. has finalized its implementation of Computer Guidance’s flagship construction enterprise resource planning (ERP) solution—eCMS v.4.0.

Gulf Island Fabrication, Inc. is a diversified, publicly-traded corporation that, since 1985, has grown to be a worldwide leader in the fabrication of specialized structures and vessels used in the oil, gas and marine industries with five integrated subsidiaries located in the states of Louisiana, and Texas. With the recent go-live of eCMS construction ERP, Gulf Island Fabrication has centralized and integrated its core financial management, human resources, payroll, job costing, purchasing, order processing, time and material billing, equipment accounting and maintenance and project management business processes and data.

“The release of eCMS v.4.0 delivers tighter financial controls through advanced business intelligence and analytics capabilities and improved operations by integrating accounting, job costing, human capital and project management disciplines throughout the enterprise.” stated Cathy Craig, Corporate IT Project Manager, Gulf Island Fabrication, Inc.

“The successes that our customers are experiencing with our latest ERP release, eCMS v.4.0, is a testimony to our capability to deliver the utmost comprehensive construction solution feature set powered by our business intelligence and analytics solution that is unprecedented in the industry.” stated Mike Bihlmeier, President, Computer Guidance Corporation.

About Computer Guidance Corporation

Since 1981, Computer Guidance offers the most complete, proven and reliable construction management solution for architecture, engineering and commercial construction companies. Computer Guidance’s eCMS solution provides financial accounting and project management applications supported by advanced business intelligence and innovative productivity tools. eCMS is recognized as the solution of choice for top general and specialty contractors in the CFMA Information Technology Survey and has been selected by the Associated General Contractors of America (AGC) as the construction management solution of choice for its members nationwide since 2010. Computer Guidance customers are recognized among the Top 400 Contractors and Top 50 Contractors by Engineering News-Record (ENR). Computer Guidance is a premier business partner of IBM Corporation, providing a solid technology foundation for both its cloud-based, hosted and on-premise, enterprise solutions.
