

Computer Guidance Corporation Showcases eCMS v.4.0 Construction ERP at CFMA's 2014 Annual Conference and Exhibition

Making Integrated Financial and Project Data Readily Available to Users across the Construction Enterprise

Scottsdale, Arizona – June 9, 2014 – Computer Guidance Corporation, the leading developer of ERP software solutions for the construction industry, today announced that Computer Guidance Corporation will be demonstrating its flagship construction ERP software—eCMS v.4.0 at CFMA's 2014 Annual Conference and Exhibition in June 7-10, 2014 at BOOTH #312 at the Caesars Palace in Las Vegas, Nevada.

Computer Guidance Corporation will showcase how its dynamic ERP package delivers a unified platform for the standardization and integration of business processes and how it helps commercial contractors transform and optimize their performance using data-driven insights when it matters most. The Computer Guidance team will demonstrate advanced eCMS applications such as business intelligence, enterprise content management, mobile field construction and self service applications in support of its rock solid construction financial and project management platform and functionality.

Visit Computer Guidance at Booth #312 at CFMA's 2014 Annual Conference and Exhibition to learn why eCMS v.4.0 is the fastest selling ERP package in Computer Guidance's history and the vast amount of benefits it has brought its prestigious customer base.

About Computer Guidance Corporation

Computer Guidance is the software development expert for construction enterprise resource planning solutions. In business since 1981, Computer Guidance has provided its customers with construction financial and project management applications supported by industry-leading business intelligence and analytics applications and advanced productivity tools. Computer Guidance is a premier business partner of IBM Corporation, providing a solid technology foundation for both its cloud-based, hosted and on-premise solutions. Hundreds of commercial contractors have implemented Computer Guidance ERP achieving quantifiable benefits year after year. Many Computer Guidance customers are represented among the Engineering News-Record Top 50, 400 and 600 and the On-Site Top 40. Computer Guidance's construction software expertise has led the Associated General Contractors of America to select Computer Guidance's solutions as the ERP solution of choice for its members. eCMS has also been acknowledged by the CFMA IT Survey, ranking its job cost, accounting and payroll applications as the number one software for commercial contractors. In 2013, Computer Guidance received a silver Contractor's Choice award from Roads & Bridges magazine recognizing eCMS as one of the most widely implemented ERP solutions among its readership.

Computer Guidance Corporation is part of the Explorer Software Group of companies. Explorer Software Group is a global software business that is exclusively in Construction with 25,000 users served, in 40 countries and in 6 continents, employing 250 staff. Explorer's core business philosophy is long-term commitment to customer service, coupled with providing the best possible solutions to customers.
