

## **Computer Guidance Corporation Sponsors AGC's 2014 Federal Contractors Conference in Washington D.C.**

*AGC Affinity Partner Confirms Its Continued Support for the Association as an Event Sponsor*

Scottsdale, Arizona – June 10, 2014 – Computer Guidance Corporation, the leading developer of ERP software solutions for the construction industry, today announced that Computer Guidance Corporation will be exhibiting and sponsoring the AGC's 2014 Federal Contractors Conference in June 10-12, 2014 at the Mayflower Hotel in Washington D.C.

Computer Guidance Corporation entered into a partnership agreement with the Associated General Contractors (AGC) of America in 2010 to provide the best-of-breed solutions and services for commercial contractors in North America. As a result, AGC members, heavy highway, civil, general, specialty, electrical and mechanical contractors can take advantage of the joint collaboration between two industry-leading organization by leveraging Computer Guidance's eCMS ERP solution at an exclusive price with benefits to the member and their chapter.

**Computer Guidance Corporation will promote its flagship eCMS v.4.0 construction ERP solution at the conference and will share real-life case studies how commercial contractors have benefited from Computer Guidance's eCMS construction ERP and the AGC Affinity program.**

### **About Computer Guidance Corporation**

Computer Guidance is the software development expert for construction enterprise resource planning solutions. In business since 1981, Computer Guidance has provided its customers with construction financial and project management applications supported by industry-leading business intelligence and analytics applications and advanced productivity tools. Computer Guidance is a premier business partner of IBM Corporation, providing a solid technology foundation for both its cloud-based, hosted and on-premise solutions. Hundreds of commercial contractors have implemented Computer Guidance ERP achieving quantifiable benefits year after year. Many Computer Guidance customers are represented among the Engineering News-Record Top 50, 400 and 600 and the On-Site Top 40. Computer Guidance's construction software expertise has led the Associated General Contractors of America to select Computer Guidance's solutions as the ERP solution of choice for its members. eCMS has also been acknowledged by the CFMA IT Survey, ranking its job cost, accounting and payroll applications as the number one software for commercial contractors. In 2013, Computer Guidance received a silver Contractor's Choice award from Roads & Bridges magazine recognizing eCMS as one of the most widely implemented ERP solutions among its readership.

Computer Guidance Corporation is part of the Explorer Software Group of companies. Explorer Software Group is a global software business that is exclusively in Construction with 25,000 users served, in 40 countries and in 6 continents, employing 250 staff.
