

## **Computer Guidance Takes Lincoln Builders To The Cloud with Hosted eCMS**

*Full-service General Contractor Takes Advantage of Robust Construction ERP with a SaaS Deployment*

Scottsdale, Arizona – August 7, 2014 – Computer Guidance Corporation, the leading developer of ERP solutions and cloud-based services for the construction industry, today announced that Lincoln Builders, a full-service general contracting, construction management, and design/build firm headquartered in Ruston, LA, has successfully migrated to Computer Guidance's cloud-based ERP solution, Hosted eCMS.

Lincoln Builders, ranked as one of the top general contractors in the motel, hotel and hospitality constructor sector in the states of Texas and Louisiana by the Engineering News-Record, went live on Computer Guidance's Hosted eCMS Construction Platform in June of 2014. The general contractor is utilizing eCMS Accounts Payable, Accounts Receivable, General Ledger, Payroll, Human Resources, Job Cost, Equipment Accounting, Business Intelligence & Analytics and Enterprise Content Management applications.

"Our company continues to expand throughout Louisiana and Texas and the accessibility and reliability of information are critical to our business allowing us to focus on meeting the needs of our customers. With Hosted eCMS, we now have advanced technologies that support our business activities while improving the productivity and efficiency of our operations," stated Lynn Hutchinson, Chief Financial Officer, Lincoln Builders.

"The success of our Cloud-based Construction Platform has understandably attracted other companies that are interested in managing their businesses and not IT. We handle all of the deployment and maintenance associated with our ERP applications and the supporting infrastructure. This is a true win-win situation for all involved," stated Mike Bihlmeier, President, Computer Guidance Corporation.

### **About Computer Guidance Corporation**

Computer Guidance is the software development expert for construction enterprise resource planning solutions. In business since 1981, Computer Guidance has provided its customers with construction financial and project management applications supported by industry-leading business intelligence and analytics applications and advanced productivity tools. Computer Guidance is a premier Business Partner of IBM Corporation, providing a solid technology foundation for both its cloud-based, hosted and on-premise solutions. Hundreds of commercial contractors have implemented Computer Guidance ERP achieving quantifiable benefits year after year. Many Computer Guidance customers are represented among the Engineering News-Record Top 50, 400 and 600 and the On-Site Top 40. Computer Guidance's construction software expertise has led the Associated General Contractors of America to select Computer Guidance's solutions as the ERP solution of choice for its members. eCMS has also been acknowledged by the CFMA IT Survey, ranking its job cost, accounting and payroll applications as the number one software for commercial contractors. In 2013, Computer Guidance received a silver Contractor's Choice award from Roads & Bridges magazine recognizing eCMS as one of the most widely implemented ERP solutions among its readership.

Computer Guidance Corporation became part of the Explorer Software Group of companies in January 2014. Explorer Software Group is a global software business that is exclusively in Construction with 40,000 users served, in 40 countries and in 6 continents, employing 250 staff. Explorer's core business philosophy is long-term commitment to customer service, coupled with providing the best possible solutions to customers.
