

ABCO Peerless Sprinkler Corp Goes Live on eCMS v.4.0 Construction ERP
Construction ERP Delivers Standardized Business Processes and Real-time Information-sharing

Scottsdale, Arizona – December 2, 2014 – Computer Guidance Corporation, a leading developer of ERP software solutions for the construction industry, today announced that ABCO Peerless Sprinkler Corp, specializing in the design and implementation of all types of fire protection projects, has gone live with Computer Guidance’s flagship ERP software solution — eCMS.v.4.0.

With the implementation of Computer Guidance’s eCMS ERP solution, ABCO Peerless Sprinkler Corp rolled out a number of applications, including core accounting, job costing, payroll, business intelligence and enterprise content management in support of customers they serve in the New York Metropolitan area.

“With eCMS v.4.0, we are effectively and efficiently establishing enterprise-wide, standardized business processes supported by a unified solution platform with integrated workflows and centralized data reporting.” stated Joanne Saunders, Controller, ABCO Peerless Sprinkler Corp.

“ABCO Peerless now joins hundreds of other eCMS v.4.0 customers in improving critical business operations by having integrated and real-time financial and operations data available on demand,” stated Mike Bihlmeier, President, Computer Guidance Corporation. “The positive impact that our ERP solution has had on our customers fuels our inspiration and affirms our position as the leading solution provider.”

About Computer Guidance Corporation

Computer Guidance is the software development expert for construction enterprise resource planning solutions. In business since 1981, Computer Guidance has provided its customers with construction financial and project management applications supported by industry-leading business intelligence and analytics applications and advanced productivity tools. Computer Guidance is a premier Business Partner of IBM Corporation, providing a solid technology foundation for both its cloud-based, hosted and on-premise solutions. Hundreds of commercial contractors have implemented Computer Guidance ERP achieving quantifiable benefits year after year. Many Computer Guidance customers are represented among the Engineering News-Record Top 50, 400 and 600 and the On-Site Top 40. Computer Guidance’s construction software expertise has led the Associated General Contractors of America to select Computer Guidance’s solutions as the ERP solution of choice for its members. eCMS has also been acknowledged by the CFMA IT Survey, ranking its job cost, accounting and payroll applications as the number one software for commercial contractors. In 2013, Computer Guidance received a silver Contractor’s Choice award from Roads & Bridges magazine recognizing eCMS as one of the most widely implemented ERP solutions among its readership.

Computer Guidance Corporation became a member of JDM Technology Group in January 2014. JDM Technology Group is a global software business that is exclusively in Construction with 40,000 users served, in 40 countries and in 6 continents, employing 250 staff. JDM Technology Group’s core business philosophy is long-term commitment to customer service, coupled with providing the best possible solutions to customers.
