Computer Guidance Corporation Promotes Steven Gross to Vice President of Client Solutions
Providing Leadership for New Business Development and Client Satisfaction

Scottsdale, Arizona – February 12, 2015 – Computer Guidance Corporation, the leading developer of ERP software solutions for the construction industry, today announced the promotion of Steven Gross to Vice President of Client Solutions, serving as an important member of the Computer Guidance leadership team.

Steven Gross has been promoted to Vice President of Client Solutions. In this position, Steven will be responsible for maximizing our clients' ROI by increasing software utilization and by targeting new product enhancements to improve and maximize the benefits clients receive from our solutions. In addition, Steven will have a key role in attracting key accounts and in maintaining Computer Guidance's leadership position within the construction industry. Steven has been with Computer Guidance for over 20 years and has had an important role in hundreds of successful client implementations serving in key roles within Professional Services, Client Solutions, and Sales.

"Time and time again Steven has demonstrated his ability to leverage his ever-growing wealth of experience and product knowledge in order to deliver a total solution specifically tailored for each client," said Mike Bihlmeier, President of Computer Guidance. "I am excited to work closely with Steven as our organization continues to strive to exceed client expectations."

About Computer Guidance Corporation

Computer Guidance is the software development expert for construction enterprise resource planning solutions. In business since 1981, Computer Guidance has provided its customers with construction financial and project management applications supported by industry-leading business intelligence and analytics applications and advanced productivity tools. Computer Guidance is a premier Business Partner of IBM Corporation, providing a solid technology foundation for both its cloud-based, hosted and on-premise solutions. Hundreds of commercial contractors have implemented Computer Guidance ERP achieving quantifiable benefits year after year. Many Computer Guidance customers are represented among the Engineering News-Record Top 50, 400 and 600 and the On-Site Top 40. Computer Guidance's construction software expertise has led the Associated General Contractors of America to select Computer Guidance's solutions as the ERP solution of choice for its members. eCMS has also been acknowledged by the CFMA IT Survey, ranking its job cost, accounting and payroll applications as the number one software for commercial contractors. In 2013, Computer Guidance received a silver Contractor's Choice award from Roads & Bridges magazine recognizing eCMS as one of the most widely implemented ERP solutions among its readership.

Computer Guidance Corporation became a member of JDM Technology Group in January 2014. JDM Technology Group is a global software business that is exclusively in Construction with 45,000 users served, in 40 countries and in 6 continents, employing 300 staff. Collectively the customers of JDM Technology Group companies employ over an estimated 1 million of the United States 6.1 million total construction workforce. JDM Technology Group's core business philosophy is long-term commitment to customer service, coupled with providing the best possible solutions to customers.
