Ivey Mechanical, Inc. Goes Live on Computer Guidance eCMS v.4.0 ERP for Added Efficiencies and Productivity in Support of Its Growing Specialty Contracting Business

ENR Top 600 Specialty Contractor and Long-term Computer Guidance Customer Successfully Completes Its eCMS v.4.0 ERP Implementation

Scottsdale, Arizona – April 30, 2015 – Computer Guidance Corporation, the leading developer of ERP software solutions for the construction industry, today announced that Ivey Mechanical, Inc, a customer of Computer Guidance since 1990, has successfully gone live with Computer Guidance’s flagship construction ERP solution—eCMS v.4.0.

The ERP deployment was a collaborative effort between the two organizations involving eleven company locations, many specialized custom programs, over 60 concurrent users and an extensive set of eCMS applications.

Ivey Mechanical, founded in 1947, offers plumbing, HVAC, BIM and drafting, fabrication and LEED capabilities to its customers across the Southeastern United States.

The leading specialty contractor will rely on Computer Guidance’s core financial applications, equipment accounting, job costing, payroll, purchasing, order processing, human resources, time and material billing, service management, enterprise content management, business intelligence and analytics applications to manage its all-encompassing HVAC and mechanical business.

Commenting on deployment, Luther Burrell, VP of Administration & IT for Ivey Mechanical, said, “In partnership with Computer Guidance, we achieved the move to the new platform with few issues while updating our custom programming with collaboration among all involved. We are pleased with the eCMS v.4.0 implementation and now we look forward to taking advantage of the new features and functionalities that eCMS v.4.0 has to offer.”

“Ivey Mechanical’s enterprise-class ERP implementation illustrates how a construction-specific, feature-rich and enterprise-class ERP can respond to the needs of a multi-faceted, growing specialty contractor with multiple locations across multiple states,” commented Brendan Hughes, Account Manager at Computer Guidance Corporation. “We are very pleased to support Ivey’s growing business and help them respond to their customers’ unique business needs day-in and day-out.”

About Computer Guidance Corporation

Computer Guidance is the software development expert for construction enterprise resource planning solutions. In business since 1981, Computer Guidance has provided its customers with construction financial and project management applications supported by industry-leading business intelligence and analytics applications and advanced productivity tools. Computer Guidance is a premier Business Partner of IBM Corporation, providing a solid technology foundation for both its cloud-based, hosted and on-premise solutions. Hundreds of commercial contractors have implemented Computer Guidance ERP achieving quantifiable benefits year after year. Many Computer Guidance customers are represented among the Engineering News-Record Top 50, 400 and 600 and the On-Site Top 40. Computer Guidance’s construction software expertise has led the Associated General Contractors of America to select Computer Guidance’s solutions as the ERP solution of choice for its members. eCMS has also been acknowledged by the CFMA IT Survey, ranking its job cost, accounting and payroll applications as the number one software for commercial contractors. In 2013, Computer Guidance received a silver Contractor’s Choice award from Roads & Bridges magazine recognizing eCMS as one of the most widely implemented ERP solutions among its readership.

Computer Guidance Corporation became a member of JDM Technology Group in January 2014. JDM Technology Group is a global software business that is exclusively in Construction with 45,000 users served, in 40 countries and in 6 continents, employing 300 staff.
