**EE Cruz Receives Gold Recognition In The Heavy Highway/GC Category At The *Constructech* 2015 Vision Awards**  
*Computer Guidance's Construction ERP Software Delivers Better Business Outcomes*  
*By Integrating Field and Office Processes*

Scottsdale, Arizona – September 1, 2015– Computer Guidance Corporation, a leading developer of ERP software solutions for the construction industry, today announced that EE Cruz was named the 2015 Vision Gold Award winner in the Heavy Highway/GC Category by *Constructech* magazine for leveraging innovative technologies enabled by Computer Guidance Corporation's ERP solution.

The *Constructech* Vision Awards acknowledge companies that have used technology in an innovative way to solve a problem to improve their competitiveness.

Construction companies are evaluated on a business challenge, how technology was innovatively used, and what the payoff of the solution is to the company. Companies are eligible for a Gold, Silver, or Bronze in their appropriate category. *Constructech* also recognizes the hardware and software suppliers that have enabled the construction company to achieve its goals.

"Every year the Vision Award winners continue to surprise me, leveraging technology that provides auspicious benefits to the organization, helping them rise above the rest," says Peggy Smedley, editorial director, *Constructech*. "This is an opportunity for others in the space to learn how technology can provide a competitive advantage."

EE Cruz earned the Gold Award in the Heavy Highway/GC Category for the implementation of Computer Guidance's Construction ERP solution, including its Enterprise Content Management application suite bringing immediate business benefits to the organization by integrating field and office business processes. EE Cruz automated their entire A/P invoice, auditing, billing, purchasing and accounts reconciliation processes as well as the management of employee personnel, vendor, subcontractors, equipment, payroll and HR information. As a result, EE Cruz gained many quantifiable benefits such as increased productivity, reduced expenses, improved accuracy and efficiency.

"We are pleased to be recognized at the *Constructech* Vision Awards for our eCMS ERP implementation and utilization," stated Lisa August, Accounts Payable Manager/ERP Administrator, EE Cruz. "Our team estimates a 20% reduction in paperwork, 30% increase in monthly transaction processing of A/P invoices and thousands of dollars saved in administrative expenses. Since these business process improvements have been completed, we have also introduced automated auditing, used electronic filing for payroll, human resources, POs, CORs, subcontracts, insurance and more."

"We were proud to be on hand to watch EE Cruz receive this prestigious award and recognition as an industry leader," said Vicki Satran, Vice President of Marketing, Computer Guidance Corporation. "We are honored to partner with our customers like EE Cruz as they take on some of the most amazing construction projects around the world."
