AUI Goes Live On eCMS v.4.0 Construction ERP Software
Long-term Computer Guidance Customer Rides Waves of Success
With CGC's ERP System and Supporting Business Intelligence Tools

Scottsdale, Arizona – January 26, 2016 – Computer Guidance Corporation, the leading developer of ERP solutions for the construction industry, today announced that AUI, a heavy highway/civil contractor, headquartered in Albuquerque, New Mexico, has completed the successful implementation of CGC's flagship ERP product—eCMS v.4.0. With the upgrade, AUI acquired additional business intelligence functionality and data mining capability while continuing to rely on the proven and rock-solid eCMS ERP platform.

With eCMS v.4.0, AUI is looking forward to begin leveraging Cognos Business Intelligence, Interactive Data Inquiry, Enterprise Content Management and many additional feature enhancements to eCMS core applications to support its growing business and increased government and compliancy reporting needs.

"Computer Guidance is the market leader in enterprise application software for the construction industry, and we are delighted to have the capabilities that the software provides. As we continue to grow our business and tap into new markets, it's imperative to have an efficient, knowledgeable and productive organization that delivers high-quality construction services," said Michele Zulka-King, Chief Financial Officer, AUI, Inc. "Our team's dedication and CGC's support resulted in a timely and within budget go-live. This implementation is just a starting point for AUI as we adopt more and more technology for better business outcomes."

"Creating data-driven cultures takes more than just solid and innovative ERP systems. Fundamentally changing the way people work is more than just technology, it is leadership and ability to manage organizational change," stated Mike Bihlmeier, President, Computer Guidance Corporation. "Companies like AUI face a number of reporting and compliancy requirements on a daily basis and as a result they study and rely on data all the time. They are not only becoming more self-sufficient and effective as an organization but they are also creating a new business culture, driven by data, which ultimately will bring them tremendous gains in profits and overall success."

About Computer Guidance Corporation
With over 20% of their client-base represented on top ENR lists, Computer Guidance Corporation has long delivered the leading construction-specific enterprise resource planning solution including financial and project management applications, #1 business intelligence, mobile technologies and enterprise content management. Scalable, custom configurable and available both cloud hosted and on-premise, eCMS serves the needs of thousands throughout North America and has been named as the ERP solution of choice by the AGC.
