**Winter Construction Announces Successful Implementation of Computer Guidance's eCMS v.4.0 ERP**

*ENR Top 400 General Contractor Leverages Additional Functionality and Applications*

*For Continued Growth and Profitability*

Scottsdale, Arizona – February 2, 2016 – Computer Guidance Corporation, the leading developer of ERP solutions for the construction industry, today announced that Winter Construction, a privately owned and operated Atlanta-based multidisciplinary general contracting company, has gone live on Computer Guidance's eCMS v.4.0. With the upgrade, Winter Construction acquired additional functionality and licensed new applications while continuing to leverage Computer Guidance's proven and reliable ERP platform to meet business objectives.

Winter Construction's objective has been to grow its top line revenues as well as bottom-line profits through the execution of its well-defined business strategies. In order to do so, Winter Construction needed additional innovative technologies, integrated data and process improvements, and they wanted to accomplish these initiatives quickly, simply and cost-effectively.

In 2015, Winter Construction chose to implement Computer Guidance's eCMS v.4.0 ERP software. A rapid and successful implementation has enabled the contractor to streamline operations, improve processes and make business-critical data available on demand. The ERP upgrade was on time and within budget with minimal interruption to regular business activities.

"In a short period of time we have been able to leverage the business intelligence capabilities of eCMS 4.0 and we are seeing tremendous value and exciting results," stated Ralph Mumme, Vice President of Finance, Winter Construction. "We are confident that CGC's eCMS v.4.0 will help support our strategies as we continue to tap into its new and enhanced functionality."

"Like Winter Construction, many companies are realizing the benefits of eCMS v.4.0," said Brendan Hughes, Account Manager, Winter Construction. "eCMS v.4.0 is a fully integrated ERP solution that provides the visibility and control growing commercial contractors require. We look forward to sharing in Winter Construction's continued success."

**About Computer Guidance Corporation**

With over 20% of their client-base represented on top ENR lists, Computer Guidance Corporation has long delivered the leading construction-specific enterprise resource planning solution including financial and project management applications, #1 business intelligence, mobile technologies and enterprise content management. Scalable, custom configurable and available both cloud hosted and on-premise, eCMS serves the needs of thousands throughout North America and has been named as the ERP solution of choice by the AGC.
