WIMCO Corp Wins Two *Constructech* Vision Awards for Innovative Technology Application of Computer Guidance eCMS Cloud-based Construction ERP

Commercial General Contractor Recognized for Integrated Financial and Project Management and Enterprise Content Management in the Cloud

Scottsdale, Arizona – August 24, 2016 – Computer Guidance Corporation, the leading developer of cloud-based ERP solutions for the construction industry, today announced that WIMCO Corp was named the 2016 Gold and Bronze Vision Award winner in the *Builder/GC Commercial \$26 million to \$100 million Category* by *Constructech* magazine for implementations of Computer Guidance Cloud-based Construction ERP applications, meeting WIMCO Corp.'s specific business needs.

The *Constructech* Vision Awards acknowledge companies for their innovative approach to solve a particular issue and leverage technology in ways to make them more competitive in the marketplace.

"It takes more than just having the latest technology to stay ahead of the game," says Peggy Smedley, editorial director, *Constructech*. "This year's Vision Award winners are demonstrating they are reinventing how solutions are used, and are capturing a competitive advantage that will set them apart for years to come."

WIMCO Corp., a Computer Guidance customer since 1998, earned a Gold Vision Award for enhancing business-critical processes to deliver on a recently awarded nationwide renovation program contracted by a popular retail chain. The commercial contractor delivered over 150 renovation projects for this retail outlet on time, within budget and in a consistent manner using Computer Guidance's Project Collaborator, Subcontract Management and other pertinent business management applications.

The general contractor, licensed in North Carolina, South Carolina, Virginia, Maryland, Delaware, Georgia, Tennessee, Alabama, Louisiana, Mississippi, and Florida, also received a Bronze Vision Award for automating and standardizing the company's AP invoicing process, bringing about significant reduction of paperwork, decrease in data entry, increase in productivity and cost savings.

"WIMCO has adopted a policy several years ago promoting the use of technologies on an ongoing basis to deliver greater output and better service to owners, architects, engineers, subcontractors, and vendors," stated Darlene Moore, Executive Vice President, WIMCO Corp. "These *Constructech* Vision Awards are a great testament to our organization as we continue to execute on our vision and commitments."

"Computer Guidance is proud to be part of this technology revolution, working hand in hand with our customers as they are continuously looking for ways to improve their operations, solve the challenges of the future and set new standards for our industry," said Mike Bihlmeier, President of Computer Guidance Corporation.
